REMARKS

A-95 Review of FY 1977 State Plan for Vocational
Rehabilitation Services under Section 101 of the
Rehabilitation Act of 1973, as amended

The South Carolina's Vocational Rehabilitation A-95 Plan Review
utilizing the Governor's Policy for such reviews, formulated on
July 19, 1976, resulted in the following comments:

1. and 2. Adequacy of financial safeguards, and reasonableness
of costs, especially administrative costs.

HEW regulations do not require the inclusion of such
financial information in this plan. The Governor's
staff in Health and Social Development feels
that information should be required by the Federal
Government, in order to facilitate a more total
review data base. If this is not feasible, State
guidelines for such plans might be developed to
include such supportive or supplemental information.

3. Clearly defined and soundly developed statement of
need for proposed activities.

Statewide surveys are conducted on a continual basis,
by the state agency, to investigate the needs of the
citizens for rehabilitation services. Some of the
basic utilizations of these surveys are as follows:

- 1) determination of the relative needs for VR
services on the part of different segments of
the handicapped population, particularly the
need for expansion of services to the most
severely handicapped;
- 2) utilizing the survey and program results, to
determine the best means, or methods that will
enable the VR services to be utilized where
they are needed.

- 3) reviewing the efficacy of the criteria employed by the state agency in making ineligibility decisions with respect to applicants for VR services. Reports of such studies will be available to the public for review.

4. Provision for determining worth or impact of projects and programs.

Success in meeting formal service objectives is monitored by comparison of figures of those actually served and rehabilitated with the proposed figures of those that were to have been served and rehabilitated.

Evaluations of programs and projects in the State are also determined by feedback from as many handicapped individuals as possible, as to their feelings regarding agency policies and programs.

Plans are also underway to organize a more formal advisory committee including a significant proportion of handicapped individuals. This group would review and react to policy and procedural charges being considered by the Department. Also, volunteer boards have been established for each of VR's workshops and selected state facilities, to translate regulations into improved community services for the handicapped.

5. Indications of effective coordination with appropriate agencies and groups within the State.

The agency plan indicates, "To date more than 70 formal interagency agreements have been reached in an effort to provide an effective statewide service delivery system. These have produced specialized service programs in 24 school systems, major speech and hearing centers, juvenile courts, the Medical University, selected hospitals, 17 workshops and evaluation facilities, and in all of the state's institutions for retarded, mentally ill, respiratory diseases, corrections, youth services, alcoholism and drug abuse. By blending resources in these interlocking interagency programs, South Carolina has developed an unparalleled network of statewide and local community services for all types of handicapped individuals.

"During FY 1977, interagency cooperative agreements and programs will be re-evaluated and updated as necessary to assure that the severely disabled are being served in a courteous, efficient and expeditious manner. Particular emphasis will be placed on

strengthening the personal and vocational adjustment program."

There is no mention, in the plan, as to the specifics of these coordinated efforts between the state agencies.

6. General Comments

The plan appears to adequately answer the questions set out in the Governor's Statement of Policy for such reviews, except as noted in number 1 and 2.

The only other item that could be mentioned is the fact that this Plan's program year begins October 1 and runs through September 30 (the new Federal fiscal year). This could cause problems in planning and evaluation procedures when compared to the South Carolina Title XX program and state programs and budgets utilizing the fiscal year of July 1 - June 30. Investigation into the possibilities of all the programs running on the same fiscal year structure could prove to be useful in future planning endeavors.

Staff Recommendations

Office of Social Development staff respectfully recommends that the Governor sign and approve the Plan and forward the above comments to the appropriate officials.

Section 3. Agency organization3.1 Designation and authority of sole State agency

The S. C. State Agency of Vocational Rehabilitation is the sole State agency designated to administer or supervise the administration of the program under this plan. Attachment 3.1A is a certification by the State Attorney General identifying the sole State agency and citing its legal authority to administer or to supervise the administration of the program. On designation of a new State agency, a new State plan will be submitted within 90 days after the new designation. (All references in this plan to "the sole State agency" or to "the State agency" mean the agency named in this paragraph.)

Sec. 101(a)(1)(A)

Secs. 1361.6(a)
(c) & (f)3.2 Type of sole State agency

The sole State agency is:

- (a) /XX a State agency primarily concerned with vocational rehabilitation or vocational and other rehabilitation of handicapped individuals.

(For general or combined VR programs, or for independent State commission for the blind and visually handicapped)

Sec. 101(a)(1)

Secs. 1361.6(b)
& (c)

Effective Date: October 1, 1976

3.4 Local administration of Vocational Rehabilitation Program☒ The plan is not administered by local agencies.

☐ The plan is administered by one or more sole local agencies, in accordance with 45 CFR 1361.9, under written agreements with the State agency assuring operation under the supervision of the State agency, in accordance with the State plan, and in compliance with the State agency's statewide standards. Such agreement set forth the methods to be followed by the State agency in its supervision of the local agency, including an evaluation of the effectiveness of the local agency's program; and the basis on which the State agency participates financially in locally administered vocational rehabilitation programs under its supervision, and indicates whether the local agency will use another local public or nonprofit agency in the provision of vocational rehabilitation services.

The sole local agency is responsible for administration of all aspects of the program within the political subdivision which it serves.

be expected to benefit the individual in terms of employability or whether an extended evaluation of rehabilitation potential is necessary to make such a determination. It will place primary emphasis upon the determination of a vocational goal for the individual and his potential for achieving such a goal. The preliminary diagnostic study will be adequate to appraise the individual's current general health status and to provide the basis for the determinations described in 45 CFR 1361.34(b). In all cases of mental or emotional disorder an examination will be provided by a physician skilled in the diagnosis and treatment of such disorders or by a psychologist licensed or certified in accordance with State laws and regulations, in those States where such laws and regulations pertaining to the practice of psychology have been established.

Sec. 1361.35

(b) Thorough Diagnostic Study

As appropriate in each case, there will be a thorough diagnostic study to determine the nature and scope of services needed by the individual. It will consist of a comprehensive evaluation of pertinent medical,

Effective Date: October 1, 1976

psychological, vocational, educational, and other related factors bearing on the individual's handicap to employment and rehabilitation needs. It will be sufficient to determine the VR services which are needed to attain vocational goals of the handicapped individual. It will include, as appropriate, in the individual case, the special examinations and evaluations required by 45 CFR 1361.35(c) through (f). The findings of such study will be recorded in the individualized written rehabilitation program.

7.5 Conditions for acceptance for extended evaluation

Sec. 7(4)(G)

Sec. 1361.36(a)

The provision of VR services under an extended evaluation is based only on (1) the presence of a physical or mental disability which for such individual constitutes or results in a substantial handicap to employment, and (2) the inability, unless there is extended evaluation, to determine whether VR services might benefit the individual in terms of employability.

7.6 Duration, scope of services, and periodic review in the course of extended evaluation and termination of such evaluation

Sec. 7(4)(G)

Secs. 1361.36(b)
(c), (d), & (e)

VR services will be provided during extended evaluation for no longer than 18 months and in conformity with 45 CFR 1361.36(b) and (c). The individual's progress will be

thoroughly assessed as frequently as necessary, but at least once every 90 days while services are provided. Such periodic reports from those providing services as are required by 45 CFR 1361.36(d) will be considered in this assessment. The extended evaluation will be terminated in accordance with 45 CFR 1361.36(e).

7.7 Certification of eligibility, ineligibility, or for extended evaluation

Sec. 1361.37

In each instance, there will be a certification, dated and signed by an appropriate State agency staff member, as to eligibility, ineligibility, or for extended evaluation. The certification that the individual has met the eligibility requirements specified in Section 7.1 above will be made prior to or simultaneously with acceptance of a handicapped individual for VR services. The certification for extended evaluation and the certification of ineligibility will be issued pursuant to the requirements of 45 CFR 1361.37(b) and (c), respectively.

7.8 Individualized written rehabilitation program

An individualized written rehabilitation program will be initiated and continuously developed for each handicapped individual eligible for VR services and each handicapped individual being provided such services under an extended evaluation, and VR services will be provided in accordance with such program. This program will be developed jointly by the appropriate State agency staff member and the handicapped individual (or, as appropriate, his parent, guardian, or other representative). It will emphasize primarily the determination and achievement of a vocational goal. A copy of the written program, and any amendments thereto, will be provided to the handicapped individual, or as appropriate, his parent, guardian, or other representative. The individualized written rehabilitation program will be administered in accordance with the requirements of 45 CFR 1361.39.

The program will be initiated after certification of eligibility or certification for extended evaluation. The program will include at least the information described

45 CFR

in 45 CFR 1361.39(c), as appropriate. The program will be reviewed at least annually, at which time the individual (or, as appropriate, the parent, guardian, or other representative) will be afforded opportunity to review the program and if necessary redevelop its terms jointly with the appropriate State agency staff member. When services are to be terminated on the basis of a determination that the individual cannot achieve a vocational goal, the conditions set forth in 45 CFR 1361.39(e)(1) and (2) will be met. There will be at least an annual review of the ineligibility decision, in which the individual will be given opportunity for full consultation in accordance with 45 CFR 1361.39(e)(3).

Section 8 Methods of administration particular to vocational rehabilitation8.1 Continuing statewide studies and program evaluation(a) Conduct of statewide studies

The State agency will conduct continuing statewide studies of the needs of handicapped individuals within the State, the State's need for rehabilitation facilities, and the methods by which these needs may be most effectively met. Such studies will be directed toward:

(c) Annual evaluation of program effectiveness

A comprehensive evaluation of the effectiveness of the State's VR program in achieving the service goals and priorities established in the plan will be conducted annually. It will measure the adequacy of State agency performance in providing VR services, especially to the most severely handicapped, in the light of State program or financial resources. It will be conducted according to the general standards for evaluation promulgated by the Secretary, 45 CFR Part 1370. Reports of such annual evaluations will be available to the public for review.

(d) Relationship of statewide studies and program evaluation to State plan amendments

Section 23 Part B of this plan describes any changes in policy and operations resulting from continuing statewide studies and the annual evaluation of program effectiveness.

8.2 Order of selection and outcomes and service goals(a) Applicability of an order of selection to this agency

This State agency can furnish and is furnishing VR services to all individuals who apply and have been determined to be eligible or to be in need of an extended evaluation of rehabilitation potential to determine eligibility.

☐ Yes. All such individuals are served with reasonable promptness. No eligible individual has been delayed from receiving services in the past year, because there is not now, nor has there been, during the past year, any shortage of funds, facilities, or other resources necessary for serving all eligible applicants.

☒ No. The following order of selection will be maintained:

- (1) the severely handicapped
- (2) other groups of handicapped individuals decided upon by the State. Attachment 8.2(a)A lists the groups of handicapped individuals in the State agency's order of selection which are additional to the Federally mandated priority for the severely handicapped.

(b) Outcomes and service goals

Section 22 of Part B of this plan describes the general outcomes and service goals to be achieved in each priority category within the order of selection in effect in this State agency and the time periods which will be required to achieve such goals.

(c) Special consideration for certain public safety officers

Special consideration will be given in the selection for, and to the provision of, vocational rehabilitation services to those handicapped individuals whose handicap arises from a disability sustained in line of duty while performing as public safety officer, in accordance with 45 CFR 1361.31(c).

(d) Handicapped individuals for whom services were initiated under the VR Act

Services to handicapped individuals initiated under the VR Act will not be disrupted as a result of approval of a State plan under the Rehabilitation Act of 1973.

8.3 Processing referrals and applications

Sec. 1361.30

The State agency has established methods which assure expeditious and equitable handling of referrals and applications for VR services.

8.4 Case recording and authorization of services

Sec. 1361.38

(a) Individual case record

The State agency will maintain for each applicant for VR services and for each individual being provided such services, in accordance with 45 CFR 1361.38, a case record which will contain pertinent information about the individual and the services provided. The case record will include, as a minimum and to the extent pertinent, the information and documentation required by 45 CFR 1361.38.

Sec. 1361.42

(b) Authorization of purchase of services

A written authorization of services will be made simultaneously with or prior to the purchase of services and such authorization will be retained. A State agency employee who is permitted to make an oral authorization in an emergency will promptly document any oral authorization in the client's case record and confirm it in writing to the provider of the services.

- (b) Post-employment services will be provided to those individuals determined to be rehabilitated, who require such services, to the extent necessary to maintain suitable employment.

Section 9. General methods of administration

9.1 Methods necessary for proper and efficient administration

The State agency employs such methods of administration as are found necessary by the Secretary for proper and efficient administration of the plan and for conduct of all functions for which the State is responsible under the State plan and under 45 CFR Part 1361.

Sec. 101(a)(6)

Sec. 1361.10

9.2 Consultation with recipients and providers of VR services

The State agency and any sole local agency administering the plan in a political subdivision of the State will take into account, in connection with matters of general policy development and implementation arising in the administration of the State plan, the views of individuals and groups of individuals who are recipients of VR services (or as appropriate, their parents, guardians, or other representatives)

Social Security
Act, as amendedPart 1361,
Subpart ESection 11. VR services for blind and disabled recipients paid from Supplemental
Security Income program funds

Vocational rehabilitation services are furnished to Supplemental Security Income recipients who meet the selection criteria set forth in 45 CFR 1361.124(a) and in accordance with the order of selection prescribed in 45 CFR 1361.124(b), without regard to any other order of selection which would otherwise be followed under the State plan pursuant to Section 101(a)(5)(A) of the Rehabilitation Act of 1973. In accordance with 45 CFR 1361.124, services are furnished to recipients with reasonable promptness; with appropriate staff, supervision and training of personnel to carry out the necessary functions in an effective manner; without regard to any economic need test set forth in the State plan; and include the full range of services authorized in the Act, subject to the conditions, limitations and provisions with respect to the use and payments of supplemental security income program funds prescribed in 45 CFR 1361.125 and 1361.126; and in conformity with all requirements governing the State vocational rehabilitation program which are not inconsistent with 45 CFR Part 1361, Subpart E. The State agency submits budget estimates in accordance with 45 CFR 1361.127 and reports in accordance with 45 CFR 1361.128.

ATTACHMENT 1.3A SERVICES TO THE BLIND

The S. C. State Agency of Vocational Rehabilitation does not administer the program of vocational rehabilitation of the blind. Vocational rehabilitation of the blind is administered by the separate South Carolina Commission for the Blind as established by state law.

The criteria of visual disability distinguishing the responsibilities of the general and blind agencies are as follows. Those defined as "blind" or with "severe visual disability" are served exclusively by the Commission for the Blind.

- (1) "Blindness" is defined as that level of central visual acuity, 20/200 or less in the better eye with correcting glasses, or a disqualifying field defect in which the peripheral field has contracted to such an extent that the widest diameter of visual field subtends an angular distance no greater than 20 degrees and which is sufficient to incapacitate him for self-support, or an 80% loss of visual efficiency resulting from visual impairment in more than one function of the eye, including visual acuity for distance and near, visual fields, ocular, mobility, and other ocular functions and disturbances. (2)
- "Severe Visual Disability" is defined as any progressive pathological condition of the eye or eyes supported by acceptable medical examination, which in the opinion of the examiner may or will result in legal blindness within 24 months.

§ 71-271. How chapter cited.—This chapter shall be cited as "The Vocational Rehabilitation Act of South Carolina." (1957 (50) 114.)

§ 71-272. Definitions.—For the purposes of this chapter:

(1) The term "Agency" means the State Agency of Vocational Rehabilitation.

(2) The term "Commissioner" means the Commissioner of Vocational Rehabilitation appointed by the Agency.

(3) The term "vocational rehabilitation services" means diagnostic and related services (including transportation) incidental to the determination of eligibility for, and the nature and the scope of, services to be provided; training, guidance and placement services for physically handicapped individuals; and, in the case of any such individual found to require financial assistance with respect thereto, after full consideration of his eligibility for any similar benefit by way of pension, compensation, and insurance, any other goods and services necessary to render such individual fit to engage in a remunerative occupation (including remunerative homebound work), including the following physical restoration and other goods and services:

(a) Corrective surgery or therapeutic treatment necessary to correct or substantially modify a physical or mental condition which is stable or slowly progressive and constitutes a substantial handicap to employment, but is of such a nature that such correction or modification

VOCATIONAL REHABILITATION LAW

may reasonably be expected to eliminate or substantially reduce such handicap within a reasonable length of time;

(b) Necessary hospitalization in connection with surgery or treatment specified in paragraph (a) of this subsection;

(c) Such prosthetic devices as are essential to obtaining or retaining employment;

(d) Maintenance shall be furnished only in order to enable an individual to derive the full benefit of other vocational rehabilitation services being provided;

(e) Tools, equipment, initial stocks and supplies (including equipment and initial stocks and supplies for vending stands), books and training materials, to any or all of which the State may retain legal title; and

(f) Transportation (except where necessary in connection with determination of eligibility or nature and scope of services) and occupational licenses.

Such term also includes:

(g) The acquisition of vending stands or other equipment and initial stocks and supplies for use by severely handicapped individuals in any type of small business, the operation of which will be improved through management and supervision by the State Agency; and

(h) The establishment of public and other nonprofit rehabilitation facilities to provide services for physically handicapped individuals and the establishment of public and other nonprofit workshops for the severely handicapped.

(4) The term "physically handicapped individual" means any individual, except an individual qualifying under vocational rehabilitation of the blind, who is under a physical or mental disability which constitutes a substantial handicap to employment, but which is of such a nature that vocational rehabilitation services may reasonably be expected to render him fit to engage in a remunerative occupation, and persons who are severely handicapped and who are of employable age with a physical or mental disability so handicapping as to require that they be institutionalized or have the services of an attendant in order to provide themselves with their daily living requirements.

(5) The term "remunerative occupation" includes employment as an employee or self-employed; practice of a profession; homemaking, farm or family work for which payment is in kind rather than in cash; sheltered employment, and home industry or other homebound work of a remunerative nature.

(6) The term "rehabilitation facility" means a facility operated for the primary purpose of assisting in the rehabilitation of physically handicapped individuals:

VOCATIONAL REHABILITATION LAW

(a) Which provides for one or more of the following types of services:

- (i) testing, fitting, or training in the use of prosthetic devices.
- (ii) prevocational or conditional therapy.
- (iii) Physical or occupational therapy.
- (iv) adjustment training or
- (v) evaluation or control of special disabilities; or

(b) Through which is provided an integrated program of medical, psychological, social, and vocational evaluation and services under competent professional supervision; *provided*, that the major portion of such evaluation and services is furnished within the facility and that all medical and related health services are prescribed by, or are under the formal supervision of, persons licensed to practice medicine or surgery in the State.

(7) The term "workshop" means a place where any manufacture or handiwork is carried on and which is operated for the primary purpose of providing remunerative employment to severely handicapped individuals who cannot be readily absorbed in the competitive labor market.

(8) The term "nonprofit," when used with respect to a rehabilitation facility or a workshop, means a rehabilitation facility and a workshop, respectively, owned and operated by a corporation or association, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual and the income of which is exempt from taxation under § 501 (c) (3) of the Internal Revenue Code of 1954.

(9) "Establishment of a workshop or rehabilitation facility" means:

(a) In the case of a workshop, the expansion, remodeling, or alteration of existing buildings necessary to adapt such buildings to workshop purposes or to increase the employment opportunities in workshops, and the acquisition of initial equipment necessary for new workshops or to increase the employment opportunities in workshops; and

(b) In the case of a rehabilitation facility, the expansion, remodeling, or alteration of existing buildings, and initial equipment of such buildings, necessary to adapt such buildings to rehabilitation facility purposes or to increase their effectiveness for such purposes (subject, however, to such limitations as the Secretary of the Department of Health, Education, and Welfare may by regulations prescribe in order to prevent impairment of the objectives of, or duplication of, other Federal laws providing Federal assistance to states in the construction of such facilities) and initial staffing thereof (for a period not exceeding one year).

(10) The term "eligible physically handicapped individual," when used with respect to diagnostic and related services, training, guidance and placement, means any physically handicapped person, except a person

VOCATIONAL REHABILITATION LAW

qualifying under vocational rehabilitation for the blind, whose vocational rehabilitation or self care rehabilitation is determined feasible by the Commissioner, and when used with respect to other vocational rehabilitation services means an individual meeting the above requirement who is also found by the Commissioner to require financial assistance with respect thereto, after full consideration of his eligibility for any similar benefit by the way of pension, compensation and insurance.

(11) The term "*self care rehabilitation services*" means such diagnostic, psychological, medical, surgical, physical restoration, guidance, training and related services including equipment and prosthetic appliances and training in their use needed to enable a severely handicapped person to dispense with or largely dispense with the need for institutional care or for the services of an attendant and to achieve, in so far as practicable, the ability for independent living. (1957 (50) 114; 1961 (52) 255.)

(12) The term 'eligible' or 'eligibility' when used in relation to an individual's qualification for vocational rehabilitation services means a certification that (1) a physical or mental disability is present; (2) a substantial handicap to employment exists; and (3) vocational rehabilitation services may reasonably be expected to render the individual fit to engage in a gainful occupation.

§ 71-273. Declaration of policy.—It is hereby declared to be the policy of this State to provide rehabilitation services to the extent needed and feasible, to eligible handicapped individuals throughout the State, to the end that they may engage in useful and remunerative occupations to the extent of their capabilities, thereby increasing their social and economic well-being and that of their families, and the productive capacity of this State and nation, also thereby reducing the burden of dependency on families and taxpayers. (1957 (50) 114.)

§ 71-274. State Agency for Vocational Rehabilitation; appointment, qualifications and terms of members.—The Governor shall appoint a State Agency of Vocational Rehabilitation to be composed of seven members, which Agency shall provide for the administration of this chapter. The members of the Agency shall consist of one member from each congressional district and one member at large. The Governor, upon the advice and consent of the Senate, shall appoint the members. The members first appointed having been designated by the Governor to serve for terms of one, two, three, four, five, six and seven years respectively, each member of the Agency thereafter shall be appointed for a term of seven years. The terms of office shall always remain staggered so that the term of one member shall expire every year with appointments to fill unexpired terms caused by death, resignation or disability. (1957 (50) 114.)

VOCATIONAL REHABILITATION LAW

§ 71-275. Chairman of Agency; meetings, compensation and mileage.—The Agency shall elect a chairman and shall meet quarterly in regular session and on call by the chairman when necessary for the transaction of Agency business. Agency members shall receive such per diem and mileage as is provided by law for members of boards, commissions and committees. (1957 (50) 114.)

§ 71-276. Duties and powers of Agency generally.—The Agency shall provide the vocational rehabilitation services authorized by this chapter to every physically handicapped individual determined by the Commissioner to be eligible therefor, as defined by § 71-272, subsection (10), and in carrying out the purposes of this chapter, the Agency is authorized, among other things:

(1) To cooperate with other departments, agencies and institutions, both public and private, in providing the services authorized by this chapter to disabled individuals, in studying the problems involved therein, and in establishing, developing and providing in conformity with the purposes of this chapter, such programs, facilities and services as may be necessary or desirable;

(2) To enter into reciprocal agreements with other states to provide for the services authorized by this chapter to residents of the states concerned;

(3) To conduct research and compile statistics relating to the provision of services to or the need of services by disabled individuals;

(4) To enter into contractual arrangements with the Federal Government and with other authorized public agencies or persons for performance of services related to vocational rehabilitation;

(5) To contract with schools, hospitals, and other agencies, and with doctors, optometrists, nurses, technicians and other persons, for training, physical restoration, transportation, and other vocational rehabilitation services;

(6) To take such action as may be necessary to enable the agency to apply for, accept and receive for the State and its residents the full benefits available under the Vocational Rehabilitation Act of Congress and any amendments thereto, and under any other federal legislation or program having as its purpose the providing of, improvement or extension of vocational rehabilitation services.

The Agency shall not assume responsibility for permanent custodial care of any individual and shall provide rehabilitation services only for a period long enough to accomplish the rehabilitation objective or to determine that rehabilitation is not feasible through the services which can be made available to the individual being served. (1957 (50) 114; 1961 (52) 255.)

§ 71-277. Appointment and qualifications of Commissioner.—The Agency shall appoint a Commissioner of Vocational Rehabilitation, in accordance

VOCATIONAL REHABILITATION LAW

with established personnel standards and on the basis of his education, training, experience and demonstrated ability. The Commissioner shall serve as secretary and executive officer of the Agency. (1957 (50) 114.)

§ 71-278. Duties and powers of Commissioner generally.—In carrying out his duties under this chapter, the Commissioner:

(1) Shall, with the approval of the Agency, make regulations governing personnel standards, the protection of records and confidential information, the manner and form of filing applications, eligibility, and investigation and determination therefor, for vocational rehabilitation and other services, procedures for fair hearings and such other regulations as he finds necessary to carry out the purposes of this chapter;

(2) Shall, with the approval of the Agency, establish appropriate subordinate administrative units;

(3) Shall, with the approval of the Agency, appoint such personnel as he deems necessary for the efficient performance of the functions of the Agency;

(4) Shall prepare and submit to the Agency annual reports of activities and expenditures and, prior to each regular session of the legislature, estimates of sums required for carrying out this chapter and estimates of the amounts to be made available for this purpose from all sources;

(5) Shall make certification for disbursement, in accordance with regulations, of funds available, for carrying out the purposes of this chapter;

(6) Shall, with the approval of the Agency, take such other action as he deems necessary or appropriate to carry out the purpose of this chapter;

(7) May, with the approval of the Agency, delegate to any officer or employee of this Agency such of his powers and duties, except the making of regulations and the appointment of personnel, as he finds necessary to carry out the purposes of this chapter. (1957 (50) 114.)

§ 71-279. Administration of chapter.—This chapter shall be administered under the general supervision and direction of the Agency by the Commissioner. (1957 (50) 114.)

§ 71-280. To whom services available; plan effective throughout State.—Pursuant to the policy declared in § 71-273, the vocational rehabilitation services shall be provided under this chapter to persons throughout the State, and the vocational rehabilitation plan adopted pursuant to this chapter shall be in effect in all political subdivisions of the State. (1957 (50) 114.)

§ 71-281. Services to be available to disabled civil employees of United States.—Rehabilitation services provided under the State plan shall be available to any civil employee of the United States disabled while in the

VOCATIONAL REHABILITATION LAW

performance of his duty, on the same terms and conditions as apply to other persons. (1957 (50) 114.)

§ 71-282. Vocational rehabilitation fund.—There is created a special fund, to be known as the vocational rehabilitation fund. The fund shall consist of all moneys appropriated by this State and all moneys received from the United States or any other source for such purpose, as provided by this chapter. All moneys in this fund shall be deposited, administered, and disbursed in the same manner and under the same conditions and requirements as provided by law for other public funds in the State Treasury. All moneys in this fund are appropriated and made available to the Agency, and shall be expended solely for the purposes of this chapter. Any balances in the fund shall not lapse at any time but shall be continuously available to the Agency for expenditure consistent with this chapter. The Agency, acting through the Commissioner shall issue its requisition for payment of all costs of administering this chapter to the Comptroller General, who shall draw his warrant in the usual form provided by law on the State Treasurer, who shall pay it by check on the vocational rehabilitation fund. (1957 (50) 114.)

§ 71-283. Acceptance and use of gifts, etc., Federal grants and other funds.—(1) The Commissioner may, with the approval of the Agency, accept and use gifts made unconditionally by will or otherwise for carrying out the purposes of this chapter. Gifts made under such conditions as in the judgment of the Agency are proper and consistent with the provisions of this chapter may be so accepted and shall be held, invested, reinvested, and used in accordance with the condition of the gift.

(2) The acceptance of Federal funds and other funds, and their use for vocational rehabilitation, subject to such restrictions as may be imposed by the donor and not inconsistent with this chapter, is hereby authorized.

(3) Federal grants and donations for vocational rehabilitation services, unless otherwise restricted, shall be available for all vocational rehabilitation services provided under the State plan, and also for the purpose, whenever Federal funds are made available to the State under § 3 of the Federal Vocational Rehabilitation Amendments of 1954, for the extension and improvement of vocational rehabilitation services, or under § 4 of such act for projects for research, demonstrations, training and traineeships, and for the planning for and initiating expansion of vocational rehabilitation services under the State plan. (1957 (50) 114.)

§ 71-284. Appropriations.—The General Assembly shall appropriate for vocational rehabilitation such sums as are necessary, along with available Federal and other funds, to carry out the purposes of this chapter. (1957 (50) 114.)

VOCATIONAL REHABILITATION LAW

§ 71-285. Unlawful to use information derived from records.—It shall be unlawful, except for purposes directly connected with the administration of the vocational rehabilitation program, and in accordance with regulations, for any person to solicit, disclose, receive, or make use of, or authorize, knowingly permit, participate in, or acquiesce in the use of, any list of, or names of, or any information concerning, persons applying for or receiving vocational rehabilitation, directly or indirectly derived from the records. (1957 (50) 114.)

§ 71-286. Agency may provide assistance to employees in moving personal effects.—The State Agency of Vocational Rehabilitation is hereby authorized to provide reasonable aid or assistance to its regular employees in moving their personal effects from one town or place to another town or place where their headquarters are so moved in the course of the business of the Department. (1967 (55) 608.)

PART II

Permanent Provisions

SECTION 1

It is hereby declared to be the intent of the General Assembly that the following sections shall constitute a part of the permanent laws of the State of South Carolina, and the Code Commissioner is hereby directed to include same in the next edition of the Code of Laws of South Carolina and all supplements to the Code.

SECTION 3

Operation of Alcoholic Center Transferred to State Agency of Vocational Rehabilitation

(1) The State Agency of Vocational Rehabilitation, acting with the counsel and advice of the South Carolina Commission on Alcoholism for the S. C. Alcoholic Center (the Center) shall have charge and exercise general supervision over the operation and maintenance of the Center, and shall determine policies governing admission to the Center subject to requirements and restrictions imposed by law; *provided, however*, that (a) admission to the Center shall be voluntary only, (b) admission to the Center shall be limited to residents of South Carolina, (c) patients who are able to pay for their medical care and hospitalization shall be required to do so, and (d) inmates of penal institutions and patients in hospitals, clinics, or institutions for the care and treatment of the mentally ill, mentally defective, epileptic, senile, and drug addicted, other than alcoholic,

VOCATIONAL REHABILITATION LAW

maintained or operated directly by, or under the control or supervision of, the South Carolina Mental Health Commission, shall not be admitted to the Center, except that the State Agency of Vocational Rehabilitation may collaborate with the South Carolina Probation, Pardon, and Parole Board and may admit probationers and parolees to the Center under such conditions of probation and parole as may be imposed by law and fixed by rules and regulations.

(2) The State Agency of Vocational Rehabilitation may accept and contract to receive grants of any kind from the Federal Government and gifts and grants of any kind from any other source, including grants or transfers of any property now or hereafter owned or controlled by the State, for the operation and maintenance of the Center.

(3) The Commissioner of the State Agency of Vocational Rehabilitation shall have the authority and discretion to appoint and remove all employees of the Center.

(4) The Commissioner of the State Agency of Vocational Rehabilitation shall fix the compensation of all officers and employees of the Center, subject to the approval of the State Budget and Control Board.

(5) The State Agency of Vocational Rehabilitation shall submit annually to the State Budget and Control Board its requests for appropriations for the operation, maintenance, expansion, or extension, of the Center for the following fiscal year.

Provided, that on the effective date of this Act all funds and property, real and personal, held by the South Carolina Commission on Alcoholism for the operation and maintenance of the Center shall be transferred to the State Agency of Vocational Rehabilitation. All funds now or hereafter appropriated for the operation and maintenance of the Center shall be expended under the direction of the Commissioner of the State Agency of Vocational Rehabilitation.

Provided, Further, that in addition to the rights, powers, duties, hereinbefore expressly granted, to the State Agency of Vocational Rehabilitation, the Agency is authorized and empowered to maintain and operate the Center with sufficient and competent administrative personnel to adequately staff and efficiently operate the Center headquarters at the location thereof, and to provide an inpatient hospital and clinical center to be centrally located so as to be conveniently accessible to patients from all parts of the State and suitably equipped and staffed with professional and trained personnel to carry on diagnostic, therapeutic, and experimental programs in applying medical, psychiatric, religious, and all other phases of treatment of alcoholism, and to extend rehabilitation services in the State.

Provided, Further, that the South Carolina Commission on Alcoholism shall study the problem of alcoholism in the State and consult with and

VOCATIONAL REHABILITATION LAW

advise the State Agency of Vocational Rehabilitation regarding the treatment and rehabilitation of alcoholics in the State and the operation of the Center. In addition, the South Carolina Commission on Alcoholism shall retain the powers and duties previously vested in it, except to the extent that those powers and duties are conferred upon the State Agency of Vocational Rehabilitation by this Act.

Re: Legal Authority of South Carolina
Vocational Rehabilitation Department.

Dear Dr. Beckman:

This is to certify that the South Carolina Vocational Rehabilitation Department was created and established by Act No. 108 of the 1957 Acts [1957 (50) 114], commonly referred to as "The Vocational Rehabilitation Act of South Carolina". Act No. 108 is codified in Chapter 6, Title 71, Section 71-271, et seq., Code of Laws of South Carolina (1962) as amended. These provisions are the legal authority for the South Carolina Vocational Rehabilitation Department being denominated the State agency to receive and administer Federal funds for the purpose of vocational rehabilitation services in South Carolina, with the exception of the program of vocational rehabilitation of the blind which is administered by the South Carolina

Raymond G. Halford
Assistant Attorney General

RGH/cm

Organization of the State Agency:

(a) The South Carolina Vocational Rehabilitation Department is primarily responsible for the vocational rehabilitation program of the South Carolina Agency of Vocational Rehabilitation.

The State Agency of Vocational Rehabilitation was established by legislative act and its Board is recommended and appointed by the Governor with the consent of the Senate. The legislature places the Agency's relationship on the level with other major programs such as Public Education, Public Health, and Public Welfare.

The Agency consists of seven Board members duly organized to carry out the function of the law. The Board selects the Commissioner of the Vocational Rehabilitation Department, who also becomes the Executive Officer of the State Agency.

Functions and responsibilities of key staff members are included to more accurately reflect the functions of the agency.

(1) The Commissioner is responsible to the South Carolina State Agency of Vocational Rehabilitation for carrying out and enforcing the rules and regulations of the Agency with reference to the total vocational rehabilitation program. In carrying out these duties, he directs and coordinates the program and assumes the responsibility for the provision of adequate services and for uniformity in the application of all policies, rules and regulations.

(2) The Assistant Commissioner for Field and Case Services is primarily concerned with client program areas of the Department. He assists the Commissioner in planning policy and procedures for Board approval. He assists the Commissioner in the program affairs of the Vocational Rehabilitation Agency. He assists the Commissioner in planning, developing, coordinating and supervising the service delivery programs of the Department. He also assists in supervising the program provisions of the approved State Plan under the general supervision of the Commissioner.

(3) The Assistant Commissioner for Administration and Special Services is primarily concerned with the financial affairs of the Department. He assists the Commissioner in planning and developing policies and procedures for Board approval. Assists the Commissioner in the administrative affairs of the Vocational Rehabilitation Agency. Assists in the establishment and implementation of personnel, accounting and other business policies.

(4) The Supervisor of the Division of Workshops and Facilities is responsible to the Assistant Commissioner for Field and Case Services for the planning, developing, evaluating, and supervising of the workshop facilities and evaluation facilities throughout the State. This position involves responsibility for supervisory services in the area of workshops and facilities, in promoting new workshops and facilities, in evaluating established facilities, and in recommending types of services to be carried on in the workshops and facilities in the various communities throughout the State. He coordinates division services with other divisions of the Department.

(5) The Supervisor of Rehabilitation Services is responsible to the Assistant Commissioner for Field and Case Services for stimulating and promoting sound practice in providing rehabilitation services and in the delivery of case services, case planning and procedures, counseling and guidance, placement, follow-up, etc. He coordinates his work with other divisions of the Department.

(6) The Supervisor of the Division of the Vocational Rehabilitation-Public School and Youth Programs is responsible to the Assistant Commissioner for Field and Case Services for effecting an agreement with schools to provide rehabilitation services to the eligible handicapped youth. He promotes, organizes, and establishes facilities within the school which provide rehabilitation services over and above that being carried on by the school. The team approach will be used in bringing about comprehensive evaluations, personal adjustment training, prevocational and vocational training. A major portion of this may be effected within the schools, while other phases may be carried out within the community. He cooperates with the other divisions of the Vocational Rehabilitation Department in promoting total rehabilitation to these handicapped individuals.

(7) The Director of the Disability Determination Division is responsible to the Commissioner for the supervision of the operation of the Disability Determination Office. This office prepares disability determinations on applicants who have applied to their local Social Security Office for disability insurance benefits under the Social Security Administration Act. The Director is responsible also for referring potential cases to vocational rehabilitation in accordance with existing policies; for maintaining relationship with the medical profession of South Carolina to assure that satisfactory consultative examinations are obtained; and for maintaining a working relationship with Social Security District Offices and other divisions of the Rehabilitation Department.

(8) The Comptroller is responsible to the Assistant Commissioner, Administration and Special Services in assisting in planning, organizing, and directing the fiscal and accounting functions. He maintains accounts and related data and supervises activities of a varied staff of clerical and accounting personnel. He certifies vouchers for payment of proper claims.

(9) The Director of Administration assists the Assistant Commissioner for Administration and Special Services by performing internal audits of accounting records to insure validity, authenticity and legality of expenditures. He coordinates property management, inventory control and supply services.

(10) The Supervisor of the Research and Planning Division reports to the Assistant Commissioner for Field and Case Services and coordinates evaluation of special projects and service delivery programs and promotes research and the gathering and compiling of statistics. This position is on a statewide operational level and may be engaged in a total research effort or on various local levels in studying the processes and the work of the Rehabilitation Department in relationship to the needs of the State. He develops reports of research results and statistical information to be used for rehabilitation planning and promotion. He will coordinate his work with other divisions of the Department.

(11) The Departmental Training Coordinator plans and develops with other personnel an in-service staff development program. He develops techniques and methods for evaluating training needs of the staff and develops training plans in coordination with universities and colleges and special group training for strengthening the staff members of the rehabilitation program.

(12) The Program Specialist for the Deaf and Hearing Impaired supervises the Deaf and Hearing Impaired Program. He reports to the Assistant Commissioner for Field and Case Services. He supervises activities of specialty counselors for the deaf as well as coordinates programs within workshops and facilities programs.

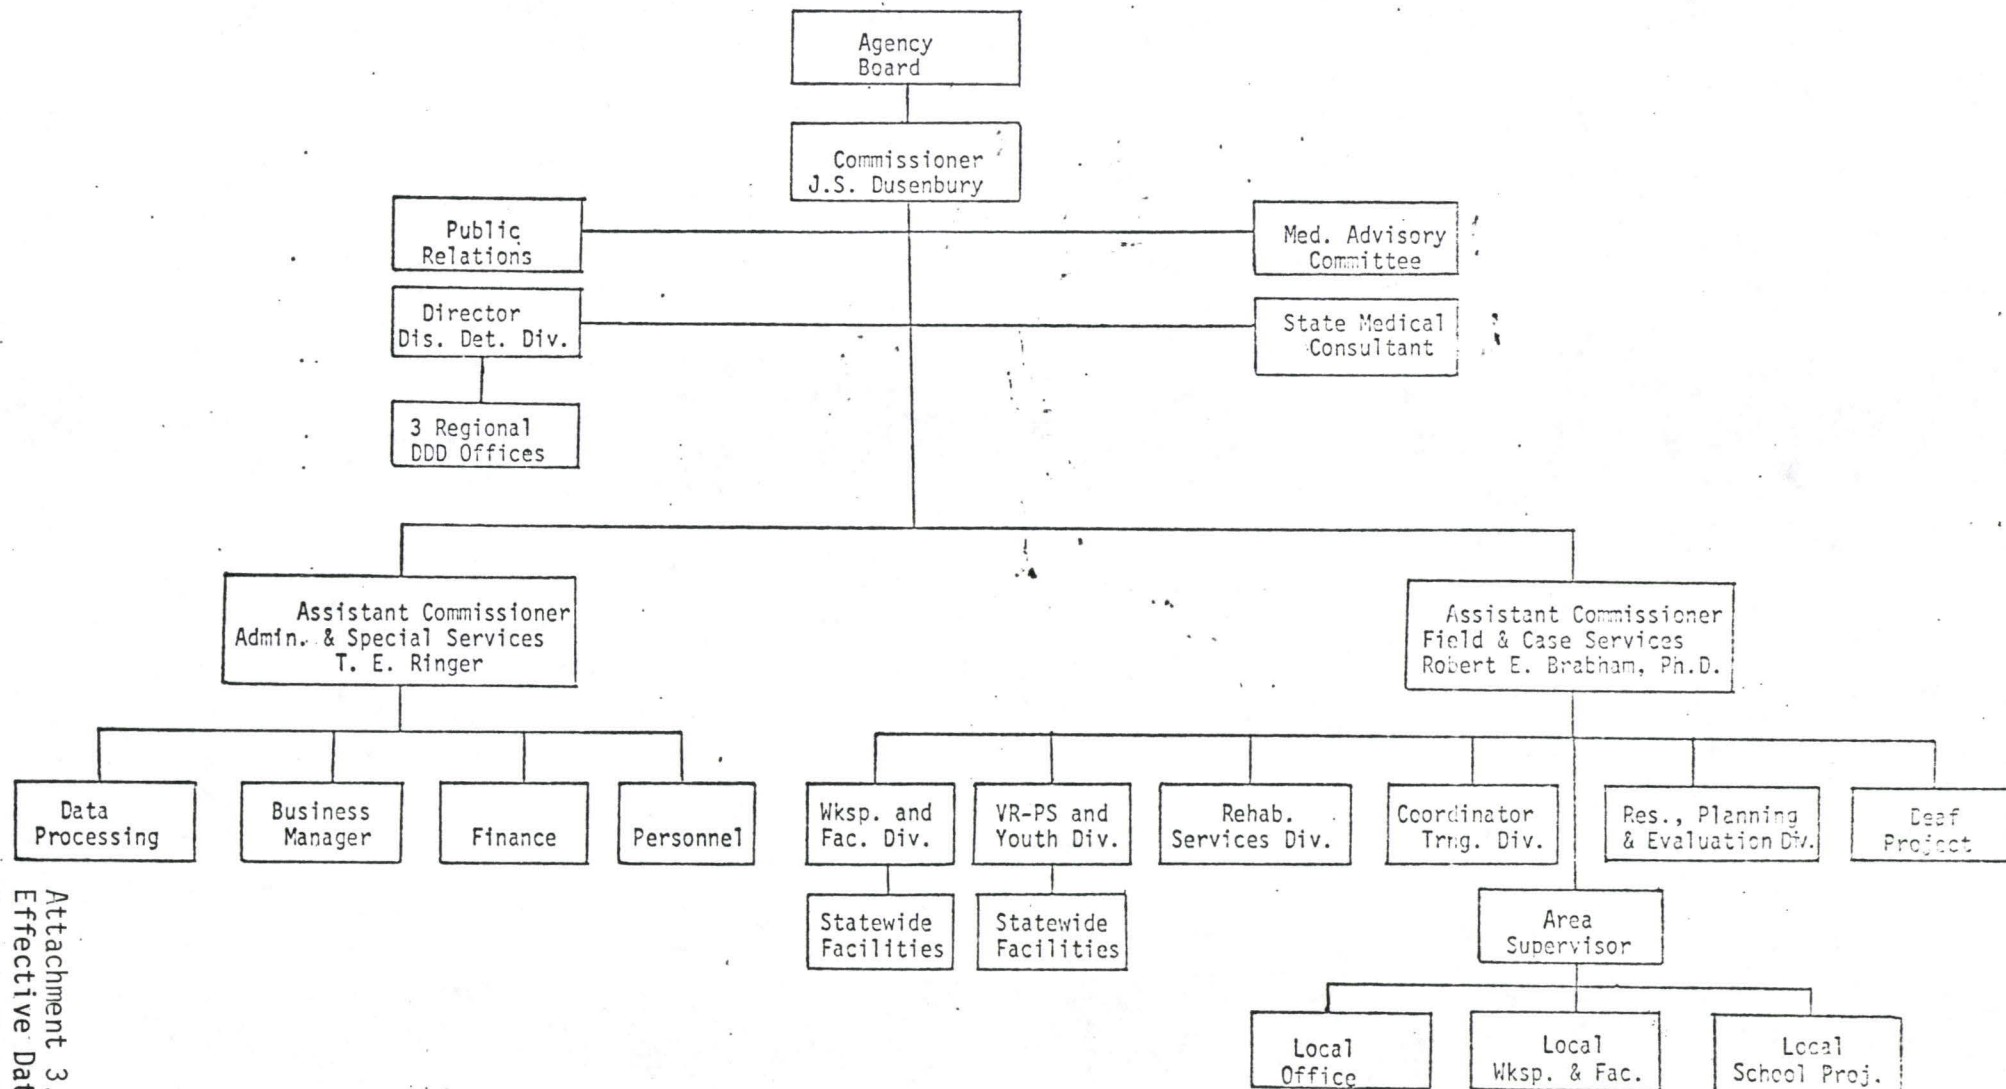

(13) The Project Administrator, Alcoholism provides technical assistance to both Palmetto Center and Holmesview, treatment centers for alcoholics sponsored by Vocational Rehabilitation. He reports to the Assistant Commissioner for Field and Case Services. He provides supportive assistance to field counselors serving alcohol cases to members of an interagency governmental committee, designated by the Alcohol and Drug Commission to review grant applications and the awarding of formula funds.

The fore mentioned positions and all other classified positions in the Vocational Rehabilitation Program are a permanent part of the South Carolina Personnel Classification System.

The State Medical Consultant is responsible for giving technical advice and consultation to the State Commissioner and staff members designated by the Commissioner with respect to the medical aspects of the vocational rehabilitation program. His duties and responsibilities will be to furnish consultation to the State Staff on individual cases and specific medical problems; advise with regard to the execution of the policies for physical restoration; assist the Department in its contracts with the medical and associated professions; assist in training the rehabilitation casework staff with regard to physical rehabilitation methods; assist in the maintenance of standards established by the Department for the selection of physicians, hospitals, and other types of facilities; and to assist in the maintenance of standards established for rates of pay to physicians, hospitals, and other medical personnel and facilities.

The Area Medical Consultant is responsible for giving technical advice and consultation to the area supervisor and counselors regarding medical aspects of the rehabilitation program within the area; for interpreting to the medical profession the policies, procedures and standards established at the State level; and for assisting in the training of rehabilitation personnel in the technical phases of physical rehabilitation. His primary function is to give advisory services to the area staff on individual cases referred to him. The Area Medical Consultant attends staff meetings occasionally in order to participate in the planning and appraisal of the medical aspects of the rehabilitation program.

SOUTH CAROLINA VOCATIONAL REHABILITATION DEPARTMENT
P. O. Box 4945
COLUMBIA, SOUTH CAROLINA 29240

ATTACHMENT 4.1B TYPE OF PERSONNEL SYSTEM

Introduction: While not on an approved "merit system" the South Carolina Vocational Rehabilitation Department is a part of the South Carolina State Classification and Compensation System which includes all assurances required by 45 CFR 401.15(a). The system includes the following provisions:

(1) Recruitment: Active recruiting, based on established manpower needs, is conducted. Recruiting is directed to all appropriate applicant sources through various media in order to attract an adequate number of candidates for consideration. All such publicity indicates that the Department is an equal opportunity employer.

(2) Classification & Compensation: The Department adheres to the established South Carolina State Classification and Compensation Plan. This plan is established and maintained on a current basis and is available for public inspection.

(3) Selection: Applicants are selected through a multi-part assessment of attributes necessary for successful job performance. The assessment is based on performance tests, validated written tests, interviews, training and experience, and background and reference inquiries.

(4) Appointment: Applicants who meet the minimum qualifications of the job class as established by the State Classification System may be appointed should an appropriate vacancy exist. Appointments are made by the Commissioner and each appointee is employed within the salary range established by the state personnel system for the particular job class. Permanent appointment is based upon satisfactory performance during a one year probationary period.

(5) Career Advancement:

(a) Performance Appraisal: The Department utilizes a formal performance appraisal system, whereby an employee is evaluated systematically. This is done in order to assess training needs, and to provide a basis for decisions on placements, transfers, salary advancements, promotions, terminations and other personnel actions.

(b) Promotion: Positions are filled by promotion from within when it is in the best interest of the Department. Consideration is given to permanent employees and is based upon the meeting of minimum qualifications for the vacant job, demonstrated capacity, and the quality and length of service.

(6) Equal Employment Opportunity: In accordance with State and Federal laws and sound personnel practices this Department provides for equal practices in employment, terminations, up-grading, training, demotions and treatment of individuals. Employees and applicants are considered for opportunities on the basis of job related

individual differences and not on the basis of factors such as sex, race, age, physical or mental disability, creed, color, national origin, or political affiliation. This Department has developed and is implementing an approved affirmative action plan for equal employment. The plan provides for specific action steps and timetables to assure equal opportunity. Discrimination based on age or sex or physical disability will be prohibited except where specific age, sex or physical requirements constitute a bonafide occupational qualification. In cases of alleged discrimination the Department's grievance and appeal procedure may be utilized.

(7) Consistency with State Licensure Laws and Regulation: The Department's personnel policies and procedures are consistent with State licensure and other pertinent laws and regulations as they are applicable to the employees of the Department.

(8) Maintenance of Written Personnel Policies and Records: Written personnel policies and procedures are maintained and distributed to employees through the supervisory staff. Records of personnel activities are maintained and periodic reports are issued in order to evaluate personnel operations in relation to the Department's standards.

(9) Staffing: The Department insures that a sufficient number of staff are available to carry out the functions as outlined in the Rehabilitation Act and the staff has the appropriate qualifications to perform the established job duties. Such staff includes specialists in program planning and evaluation, staff development and training, medical consultation, rehabilitation facility development and utilization, expansion and improved services to the severely handicapped, and affirmative action for equal employment opportunity for the handicapped.

(10) Staff Development: The agency provides a program of staff development for all classes of positions within the agency. Staff development programs are based on (a) a systematic approach to the determination of training needs, and a system for evaluating the effectiveness of the training activities; (b) an orientation program for new staff; and (c) a plan for continuing training opportunities and career development for all classes of positions held under expert leadership at suitable intervals. The staff development program does not include leaves of absence for institutional or other organized training for full-time study. The State agency has established, in writing, the policies governing the granting of minimum release time, payment of tuition, and other regulations as related to in-service training.

(11) Political Activity: Employees engaged in the administration of the Vocational Rehabilitation program shall not participate in any political activity prohibited by the Hatch Act, but employees shall always have the right to express their views as a citizen and to cast their votes.

ATTACHMENT 4.2A: BASIC AFFIRMATIVE ACTION PLAN FOR
EQUAL EMPLOYMENT OPPORTUNITY

AFFIRMATIVE ACTION PLAN
FOR MINORITIES, WOMEN AND OLDER PERSONS

S. C. VOCATIONAL REHABILITATION DEPARTMENT

JOE S. DUSENBURY
COMMISSIONER

AFFIRMATIVE ACTION PLAN

1. Introduction - It is the policy of the S. C. Vocational Rehabilitation Department to implement fully an Equal Opportunity Program. This program provides for equal practices in employment, terminations, upgrading, training, assignment of work, rates of pay, use of facilities, transfers, promotions, demotions, and treatment of individuals.

A review of our equal opportunity employment record reveals that much progress has been made in recent years; however, improvements are still needed if we are to assure that genuine equal opportunity is extended to all people.

2. Equal Employment Opportunity Policy - It is the policy of this agency to recruit, hire, and promote employees without discrimination because of race, religion, color, political affiliation, physical disability, national origin, sex or age; except where sex or age is a bonafide occupational qualification. Furthermore, it is our policy to take affirmative action to remove any disparate effects of discrimination because of race, religion, color, national origin, sex or age; except where sex or age is a bonafide occupational qualification. This policy applies to all levels and phases of personnel administration such as recruitment or recruitment advertising, testing, hiring, promotion, transfer, leave policy and rates of pay. This Department submits this plan to assure its commitment to a program that provides an equal employment opportunity for all persons on the basis of job related individual differences. This is done not solely because of legal requirements, but because it is a basic element of human dignity.
3. Communicating Objectives - Allen T. Gantt, Jr. has been appointed the Equal Employment Opportunity Coordinator. (Appendix 1, copy of original appointment from the Commissioner). This person is responsible for the over-all administration of this plan and is in touch with the Commission on Human Affairs. This person has the authority through the Commissioner to implement every facet of this plan, and this person has direct contact with all others who play a role in accomplishing the agency's goal.

All employees of this Department have been provided with the Affirmative Action Policy and in addition, the policy is placed on the bulletin board in all S. C. Vocational Rehabilitation Offices. All supervisors of this Department are advised of the Affirmative Action Policy in writing and in meetings, and are reminded of the existence of this policy at least four times each year; and a record of such reminders are maintained.

Each supervisor has been assigned specific responsibilities related to an affirmative action program in his specific work area. Supervisory responsibilities extend to explaining and discussing the affirmative action program with subordinates. Through our performance evaluation process, the supervisors and subordinates are evaluated in this particular area.

All officials and employees of this Department, as well as employment agencies, and advertising agencies with whom this agency deals, will be informed of this practice statement.

(See:

- Appendix 2 - Statement in State-Federal Plan
- Appendix 3 - Policy Statements in Supervisory Administrative Manual
- Appendix 4 - Policy in Employees' Handbook
- Appendix 5 - Civil Rights Procedures in Counselor Manual.)

4. Identification of Problem Areas - Statistical data is collected, maintained and analyzed on a quarterly basis on employment of minority groups and women in all organizational and geographic areas. An internal departmental review and evaluation is conducted in January and July of each year. This internal review and evaluation is aimed at all EEO affirmative action program activities. The periodic internal reports on EEO program problems and progress are submitted to the Commissioner and the problems are corrected through affirmative action. Employees are encouraged to raise questions concerning the EEO policy in regular weekly staff meetings and through our management training programs the program is communicated and problem-solving methods are discussed. Supervisory personnel and subordinates are informed that they should consult with the EEO officer if a problem develops.

(Appendix 6 identifies recruiting procedures for the various job levels;
Appendix 7 indicates an analysis of present work force;
Appendix 8 shows the number of employees hired and terminated during the past fiscal year;
Appendix 9 is a statistical analysis of present work force;
Appendix 10 analyzes work force by grades.)

5. Establishing Goals - Every effort will be made to adhere to the established goals and timetables; however, it is difficult to establish logical goals and timetables when the funding situation with this Department is unpredictable from year to year. The affirmative action goal is to recruit, train and promote females, blacks and other minorities into the total job range utilized by this Department. The ultimate purpose is that the staff of this Department will fairly represent the female, black and other minority available and qualified manpower in our recruiting area.

This Department secured funding in 1972 to establish the second graduate program in rehabilitation counseling in the state. This was done at a time when federal funds were being curtailed for training programs and the program at S. C. State was one of only two such programs funded in the United States. This securing of funds in order to make more counselors available from a predominately black college clearly demonstrates this agency's commitment to securing qualified minority staff. In addition, over forty of our employees are enrolled in this school's graduate rehabilitation counseling program and this department is providing tuition payments to these students.

6. Training and Upward Mobility - This department is in the process of developing a more comprehensive data bank on our employees in order to determine if there are any training gaps. The data bank is referred to when vacancies exist so that all minorities and women are considered who meet the qualification required to perform the vacant job. When special training money is made available specialized training sessions will be conducted in conjunction with

our management training program regarding the status of the employment of minorities and women. Evidence of these training sessions will be maintained.

7. Recruitment and Selection - This department is increasing its efforts to attract, recruit, and employ qualified employees from minority groups. The supervisors and subordinates of this department are maintaining contacts with minority groups, thereby developing a mutual understanding of the Vocational Rehabilitation Department and its goals for an affirmative action program of equal opportunity.

The best source of recruiting minority employees has been the predominantly black institutions of higher learning, governmental agencies, and minority group employees. These valuable sources have been strengthened and expanded.

The Employment Application utilized by this department has been revised to eliminate any possibility of inadvertent discrimination.

A system is being developed to provide for a formal upgrading program which includes the following items:

- A. Job listing of vacancies.
- B. Equal opportunity to all employees to apply for upgrading.
- C. Fair selection standards.
- D. Follow-up to insure adequate performances.

Applicants are accepted for positions on the basis of job-related individual differences and not on the basis of factors such as race, religion, national origin or sex.

Each applicant applying in the personnel office is informed fully of the employment process (selection and placement). After the vocational rehabilitation program is fully explained, applicants are interviewed to determine their areas of interests. Once areas of interests are determined, the applicant is informed and referred to vacancies which would related to their areas of interest. If a position is not available, information on the applicant is placed on an applicant registry for future consideration. The system has been reviewed to remove any possible inadvertent discrimination.

State of South Carolina

South Carolina Commission on Human Affairs

P.O. Box 11528

COLUMBIA, SOUTH CAROLINA 29211

GEORGE D. HAMILTON
Executive Director

January 30, 1973

Mr. George D. Hamilton, Commissioner
South Carolina Commission on Human Affairs
Post Office Box 11528
Columbia, South Carolina 29211

Dear Mr. Hamilton:

Reference is made to your letter dated January 29, 1973, regarding the development of an Affirmative Action Plan and the appointment of someone from my staff to serve as a liaison with the Commission on Human Affairs.

Mr. Allen T. Gantt, Jr., Personnel Director, has been appointed the Equal Employment Opportunity representative for this Department. As you know, we are a State-Federal agency which receives funds from HEW; therefore, we are required by the United State Civil Service Commission to have an Affirmative Action Plan. We submitted our first Affirmative Action Plan in 1971 and have submitted one each year thereafter.

Mr. Gantt will be happy to serve as the liaison with the Commission on Human Affairs, and we are looking forward to receiving the information regarding the workshops which will begin on March 5, 1973.

Very truly yours,

Dill D. Beckman
Commissioner

DDB/cgc

cc: Mr. Allen T. Gantt, Jr.

APPENDIX 8

APPLICANT AND TURNOVER ANALYSIS

Information is not available for a breakdown by race and sex on the number of applicants for jobs with this Department; however, a reporting system is being developed for the current fiscal year.

During the past fiscal year we employed 226 persons and they include:

81	White Males
11	Black Males
1	Other Male
112	White Females
20	Black Females
1	Other Female

During the past fiscal year 133 employees terminated and they include:

39	White Males
1	Black Male
1	Other Male
85	White Females
5	Black Females
2	Other Females

AVAILABILITY OF WORK FORCE

1. The state from which this agency draws most of its manpower has a labor force of approximately 991,844 persons. Of this number, approximately:

<u>441,058</u>	are White Males
<u>288,708</u>	are White Females
<u>143,117</u>	are Black Males
<u>117,447</u>	are Black Females
<u>853</u>	are Other Males
<u>661</u>	are Other Females

2. There are approximately 115,119 college graduates in this area. Of this number, approximately:

<u>56,838</u>	are White Males
<u>45,374</u>	are White Females
<u>4,280</u>	are Black Males
<u>8,627</u>	are Black Females
<u> </u>	are Other Males
<u> </u>	are Other Females

3. There are approximately 37,288 unemployed persons in this area, Of this number, approximately:

<u>8,446</u>	are White Males
<u>11,842</u>	are White Females
<u>6,543</u>	are Black Males
<u>10,457</u>	are Black Females
<u> </u>	are Other Males
<u> </u>	are Other Females

4. The source of the above data is:

1970 Census

APPENDIX 12

RECRUITING SOURCES

Black colleges in South Carolina have been our prime recruiting source for minority workers. We have maintained close contact with the following colleges:

- Allen University
- Benedict College
- Claflin College
- Morris College
- S. C. State College
- Voorhees College

APPENDIX 13

GOALS

Twelve Month Goals

During the next twelve months we anticipate (because of attrition, retirement, expansion, etc.) employing approximately 150 new employees. Assuming the availability of qualified people in each occupational category, our goals for this period include:

- (1) a. Hiring black employees at the rate of 1 to 4. This will bring the minority to white ratio in our agency to 1 to 9.
b. Bringing the mean grade for minority employees from 10.2 to 12.0
- (2) a. Hiring female employees at the rate of 1 to 1. This will bring the female to male ratio in our agency to 1 to 1.
b. Bringing the mean grade for female employees from 9.3 to 10.0.

Three Year Goals

During the next three years we anticipate (because of attrition, retirement, expansion, etc.) employing approximately 350 new employees. Assuming the availability of qualified people in each occupational category, our goals for this period include:

- (1) a. Hiring black employees at the rate of 1 to 4. This will bring the minority to white ratio in our agency to 1 to 8.
b. Bringing the mean grade for minority employees from 12.0 to 13.0
- (2) a. Hiring female employees at the rate of 1 to 1. This will bring the female to male ratio in our agency to 1 to 1.
b. Bringing the mean grade for female employees from 10.0 to 11.0.

Five Year Goals

During the next five years we anticipate (because of attrition, retirement, expansion, etc.) employing approximately 500 new employees. Assuming the availability of qualified people in each occupational category, our goals for this period include:

- (1) a. Hiring black employees at the rate of 1 to 4. This will bring the minority to white ratio in our agency to 1 to 7.
b. Bringing the mean grade for minority employees from 13.0 to 14.0

(2) a. Hiring female employees at the rate of 1 to 1. This will bring the female to male ratio in our agency to 1 to 1.

b. Bringing the mean grade for female employees from 11.0 to 12.0.

AFFIRMATIVE ACTION - OLDER PERSONS

This Department is in the process of developing statistics which will indicate where we stand with regard to employment of older persons and, as a result of not having these statistics at this time, is unable to project targets and planned activities for the coming year with regard to an Affirmative Action Plan for employment and advancement of older persons. During the next fiscal year this plan will be developed and carried out to its fullest extent.

Attachment 4.3A: BASIC AFFIRMATIVE ACTION PLAN FOR EMPLOYMENT
AND ADVANCEMENT OPPORTUNITY FOR HANDICAPPED INDIVIDUALS

AFFIRMATIVE ACTION PLAN FOR THE HANDICAPPED

S. C. VOCATIONAL REHABILITATION DEPARTMENT

JOE S. DUSENBURY
COMMISSIONER

Affirmative Action Plan for the Handicapped

1. INTRODUCTION

It is the policy of the South Carolina Vocational Rehabilitation Department to implement fully an Equal Opportunity Program for the physically and mentally handicapped. This program provides for equal practices in employment, termination, upgrading, training, assignment of work, rates of pay, use of facilities, transfers, promotions, demotions, and treatment of the individuals.

2. EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

It is the policy of this agency to recruit, hire, and promote employees without discrimination because of race, religion, color, physical disability, national origin, sex or age. See Appendix #1 Equal Employment Opportunity. This policy applies to all levels and phases of personnel administration such as recruitment, recruitment advertising, testing, hiring, promotion, transfer, leave policy, and rates of pay. This department publicizes this plan to assure its commitment to a program that provides an equal employment opportunity for all persons on the basis of jobs related individual differences. There is conspicuous posting of the agency's affirmative action policy in each office.

3. COMMUNICATING OBJECTIVES

The Personnel Director is the Equal Opportunity Officer. This person has been appointed by the Commissioner and is responsible for the overall administration of this plan. This person has the authority through the Commissioner to implement every facet of this plan, and this person has direct contact with all others who play a role in accomplishing the agency's goal.

Each supervisor has been assigned specific responsibilities related to an affirmative action program in his specific work area. Supervisory responsibilities extend to explaining and discussing the affirmative action program with subordinates. Supervisors will submit periodically to the Personnel Director an analysis of the recruiting, hiring, and training of the handicapped.

4. IDENTIFICATION OF PROBLEM AREAS

Statistical data is collected, maintained, and analyzed periodically on employment of the handicapped in all organizational and geographic areas. At the present time, 16% of all Vocational Rehabilitation employees have a physical or mental impairment. The disabilities have been categorized according to the Case Service Manual (see Appendix #2).

5. ESTABLISHING GOALS

The Affirmative Action Goal is to recruit, train, and promote handicapped individuals into the total job range utilized by this Department. Goals have been established by taking the percentage of the disabled population in South Carolina and applying this to our agency work force and, on a quarterly basis, these goals are discussed with agency supervisory personnel. Based on availability data, this department has reached its affirmative action goal in regards to employment of the handicapped. It is the policy of this standard.

Appendix 3 indicates analysis of present work force.

Appendix 4 indicates availability data.

6. TRAINING AND UPWARD MOBILITY

This Department is in the process of developing a more comprehensive data bank on our employees in order to determine if there are any training gaps. The data bank is referred to when vacancies exist so that all handicapped employees who meet the qualification required to perform the vacant jobs are considered. When special training money is made available specialized training sessions will be conducted in conjunction with our management training program regarding the status of the employment of the handicapped. Evidence of these training sessions will be maintained.

7. RECRUITMENT AND SELECTION

This Department continues to attract, recruit and employ handicapped individuals and is committed to provide equal opportunity for vacancies for the handicapped when they arise. The supervisors and subordinates of the Agency are maintaining contact with handicapped persons thereby this being the best source of recruiting. At the time a position becomes vacant, supervisors consider handicapped persons along with others when recruiting. There is an annual review of all positions within the Department with regards to identifying positions which can be filled by handicapped persons.

The Employment Application utilized by this Department has been revised to eliminate any possibility of inadvertent discrimination.

This department is acutely aware of the environmental and attitudinal barriers existing to the employment of the handicapped. Every effort is being made to provide the handicapped equal rights in all aspects of the employment situation.

8. FACILITIES

The policy set forth in this Affirmative Action Plan will be made available to all rehabilitation facilities throughout the State because these facilities are owned and operated by the South Carolina Vocational Rehabilitation Department.

9. BARRIERS

Since the handicapped citizens of the state are the source of Vocational Rehabilitation services, this agency is acutely aware of the environmental barriers faced by the handicapped. Each of our facilities is accessible to and usable by the physically handicapped person.

10. GRIEVANCE

See Appendix 5.

This set of grievance procedures applies to any form of discrimination. An employee may utilize the formal grievance and appeal procedure to request a hearing by the Employee Grievance and Appeal Committee or the State Employees Grievance Committee.

PURPOSE:

The purpose of this Policy is to provide a means whereby an employee who has six months of satisfactory employment with the Vocational Rehabilitation Department and feels that he has been subjected to unfair, discriminatory or abusive treatment may secure a hearing without delay and be assured of a prompt, orderly and fair response to the grievance or appeal.

POLICY:

The South Carolina Vocational Rehabilitation Department recognizes the right of employees to present and seek answers to grievances without fear of restraint, interference, coercion, discrimination or reprisal.

Employees who submit formal grievances may elect to be accompanied by another employee of his own choosing.

Members of the Grievance and Appeal Committee, presently employed personnel involved in a grievance hearing, and witnesses may attend Committee hearings without charge to leave or loss of pay. Employees may obtain from their supervisors a reasonable amount of time off without charge to leave or loss of pay for the purpose of securing advice on rights and privileges provided by this Policy and for obtaining information and assistance pertaining to their grievance which can only be obtained during normal working hours.

The Personnel Office will explain the procedures in detail to any employee and give assistance if needed. The predominant role of the Personnel Office in settling grievances is that of an advisor functioning objectively in a staff capacity. The Personnel Office is available to counsel with the employee and the supervisor in any phase of the formal grievance procedure.

Upon completion of the Employee Grievance and Appeal Committee hearing and the final decision, a copy of the Committee transcripts and other related correspondence will be forwarded to the Personnel Office for filing in the employee's personnel folder. All transcripts, records and findings of the Committee are property of the South Carolina Vocational Rehabilitation Department and are confidential. The records will not be made available for review to anyone except Departmental employees designated by the Commissioner of the South Carolina Vocational Rehabilitation Department.

PROCEDURE:

The formal grievance and appeal procedure will not be utilized until the employee has discussed his grievance with his immediate supervisor on an informal basis. The Immediate supervisor should make every effort

to resolve the problem on an informal basis. The employee's immediate supervisor should consult with his immediate supervisor concerning the problem or grievance. If the problem cannot be resolved on an informal basis, the employee may then utilize the formal grievance and appeal procedure. The following procedure shall regulate the submission, presentation and processing of all employee grievances.

Step One

If an employee has a problem or a grievance which cannot be resolved through the normal process of informal discussion, he may complete SCVR Form 64, Employee's Request for a Formal Grievance Hearing (see Exhibit 1). Copies of this form should be sent to the immediate supervisor and to the Personnel Office. After an employee requests a formal hearing, the immediate supervisor will schedule a hearing within five (5) calendar days after the formal request is filed and will hear the grievance and review the facts in an impartial manner. The immediate supervisor may call higher level supervisors into the discussion if the employee agrees, or the immediate supervisor may consult with higher level supervisors outside the formal hearing to secure advice before making a decision.

The employee shall receive an answer within ten (10) calendar days after the start of the first step of the hearing, or the employee will be notified and advised as to when an answer may be expected. The immediate supervisor will complete SCVR Form 65, Summary of Supervisory Grievance Hearing (see Exhibit 2), and send copies to the employee requesting the hearing and to the Personnel Office.

When the employee is notified of the decision of the immediate supervisor, the employee will be advised that he has the right to appeal the immediate supervisor's decision if a mutually agreeable decision has not been made.

Step Two

If the employee feels that the decision reached in the first step is not satisfactory or if the employee fails to receive an answer within the designated period of time provided in the first step, the matter may be referred by the employee to the Employee Grievance and Appeal Committee. The Commissioner of the Vocational Rehabilitation Department shall appoint an ad hoc Employee Grievance and Appeal Committee which shall be composed of three (3) employees of the Department. Any request for review at this stage will be submitted in writing to the Commissioner of the Vocational Rehabilitation Department within five (5) calendar days after receipt of the first step decision. The employee should state clearly the nature of his grievance and why the decision in the first step is unfair.

The Employee Grievance and Appeal Committee will schedule a hearing within ten (10) calendar days after receiving the request for a hearing. The Committee shall conduct whatever hearings, interrogation, investigations and fact-finding activities necessary to determine the facts.

At the conclusion of the hearings by the Employee Grievance and Appeal Committee, it will be the responsibility of the Committee to inform the Commissioner of the Department within ten (10) calendar days after the Committee hearing of the details of the problem, the reasons why it was not resolved at lower levels, and recommendations of the Committee. The Commissioner of the Department will make a decision within five (5) calendar days after receiving the decision and recommendations of the Committee, and his decision will be given to the employee, with copies to all concerned parties.

STATE EMPLOYEES GRIEVANCE COMMITTEE

Any employee who has six (6) months satisfactory service with the State may appeal a decision of the Department to the State Employees Grievance Committee. Such appeal must be in writing and submitted to State Personnel Division within ten (10) calendar days following the decision of the Department.

The Vocational Rehabilitation Department's grievance and appeal procedure shall not exceed the total of forty-five (45) calendar day time limit from beginning to end. Should the time period for the final decision exceed the forty-five (45) calendar day limit, an employee has the right to appeal directly to the State Employee Grievance Committee.

Attachment 8.2(a)A: ORDER OF SELECTION

A system of priorities has been established within the South Carolina Vocational Rehabilitation Department to assure that the most severely disabled will be served first in the event that case service resources are not sufficient for all individuals applying for service.

Three general priority groups have been established, each including a number of client disability groups. As may be noted, certain broad disability categories have been included in more than one priority group because the disability category includes one or more disorders having varying degrees of severity.

This order of priority system has been established for all Vocational Rehabilitation clients served with RSA Section 110, SSDI and SSI funds. It does not include clients served in programs funded fully through other resources such as the Title XX, LEAA, and CETA programs. Any priority reordering of services to these clients would have to be negotiated with the agencies involved. Outcome and service goals noted in Attachment 2B, however, will reflect all successful closures and clients served.

Priority ratings and service goals for the coming year are tentative and may need to be adjusted as further program evaluation data are obtained. In establishing its service delivery system, this agency has attempted to maintain a balanced program with an equitable distribution of services to persons in all races, sex groups, geographic areas, etc. A continuing analysis is constantly being made of the agency's allocation and use of resources in relation to the population of each area of the state. The strategy to serve more severely disabled must be developed cautiously and deliberately to prevent a disproportionate amount of the agency's resources going toward physical restoration services.

During the coming year, the Department expects to take applications from all individuals who apply for service. In keeping with Section 504, P.L. 93-112, no qualified handicapped individual will be excluded from participation in the program solely by reason of his handicap. All eligible individuals will be served with reasonable promptness in keeping with the availability of funds, personnel, facilities and other resources necessary for serving them.

If our monthly monitoring of applicants, client services provision, and financial status reveals the need for a reduction in services during the year, a decision will be made by the Commissioner regarding the degree and type of service reductions to keep within available resources. Standard organizational procedures will be followed to implement the decision.

Rather than excluding any disability groups from service, however, it is expected that most changes in the order of selection will come about gradually by (1) intensifying efforts of agency personnel to cultivate selected referral sources which tend to refer "high priority" clients and (2) modifying agency patterns of service to various types of handicapped individuals in keeping with their priority status.

An effort will be made to intensify the agency's relationship with referral sources referring significant numbers of clients who are (1) severely disabled, (2) physically impaired individuals with mobility problems who need help in reducing architectural barriers or restructuring work settings, (3) disabled public safety officers, and (4) clients in federally funded programs with which Vocational Rehabilitation has a cooperative agreement such as Trust Fund, S.S.I., L.E.A.A. and Title XX programs.

The following order of selection has been established:

Priority Group 1:

Individuals in these disability categories all tend to be severely disabled and are to receive first priority of service resources. During the coming year, it is expected that the number served and rehabilitated in these categories will increase.

200-219	Deaf
532-534	Mental Retardation (Moderate, Severe)
318,338,	Paraplegia, Quadraplegia, and Other Spinal Cord conditions
358,378,	
398	

Priority Group 2:

Individuals in these disabilities categories are considered as a second order or priority. Although the types of disabilities included in this group are not automatically classified as severe when considered alone, many of these individuals have multiple handicaps and may be considered severely handicapped provided they have additional functional limitations. During the coming year, it is expected that the number of general program clients served and rehabilitated in most of these categories will remain relatively constant if funds are received as expected.

120-149	Visual Impairment (Excluding blindness)
220-229	Hearing Impairment (Excluding deafness)
300-449	Amputations and Orthopedics (Excluding Spinal Cord Conditions)
500-510	Mentally Ill
630	Epilepsy
640-644	Heart Disease (Excluding other hypertensive, varicose veins, hemorrhoids and other circulatory)

Priority Group 3:

Individuals having these types of disabilities are considered as a third order of priority and will be served provided sufficient funds are available. Most of the disability categories are not included on the list of clients to be considered severely disabled nor is it expected that the majority of these people will have multiple handicapping conditions. During the coming year, it is expected that the number of general program clients served and rehabilitated in most of these disability categories will decline slightly unless extenuating circumstances are noted in the outcomes and service goal remarks.

If program funds are reduced during the year, it is expected that services to persons in these disability categories will be curtailed first and probably more extensively than those in priority groups 1 and 2.

520	Alcoholism
521, 523	Drug Addiction and Abuse
522	Other Personality Disorders
530	Mental Retardation (Mild)
645-649	Heart Disease - hypertension, varicose veins, hemorrhoids, and other circulatory.
601, 680-689	Speech Impairments
600, 660-669	Digestive System Disorders
690-699, etc.	All other disabilities, N.E.C.

9.11(a)A METHODS OF ADMINISTRATION (CIVIL RIGHTS)

(a) Pursuant to the provisions of Title VI of the Civil Rights Act of 1964, and the Regulations issued thereunder, the vocational rehabilitation program administered by the South Carolina Agency of Vocational Rehabilitation is being and will continue to be conducted in such manner that no person in the United States will be excluded from participation in, be denied the benefits of, or be subjected to discrimination under such program on the ground of race, color, or national origin. The state agency is in fact administering the program in accordance with the law, the Regulations, and the policies and practices enumerated in Section (b) below.

(b) The State agency will conduct the vocational rehabilitation program in accordance with the provisions of Title VI and the Regulations issued thereunder, and, more specifically, will follow policies and practices including but not limited to those described below.

(1) No individual will on the ground of race, color, or national origin, be denied any service, financial aid, or other benefit provided under the vocational rehabilitation program or be provided a service, financial aid, or other benefit which is different, or is provided in a different manner, from that provided to others under the program. Such services, financial aid, or other benefits include all vocational rehabilitation services under the Vocational Rehabilitation Act, the Regulations Governing the Vocational Rehabilitation Program and the approved State Plan, and such related matters as the making of appointments, the designation of waiting periods, the selection of employment objectives, the quality of the services provided, and the selection of assignment of operators of vending stands and other small businesses.

(2) No individual will on the ground of race, color, or national origin be subjected to segregation or separate treatment in any matter related to receipt of any service, financial aid, or other benefit under the vocational rehabilitation program, nor will the individual be restricted in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under the program. This includes any distinction with respect to spaces where services are offered or provided, housing and eating facilities, waiting rooms, and restrooms. Neither will separate times be set

aside on the ground of race, color, or national origin for the provision of services.

(3) Employees of the agency, or of other agencies or organizations participating in the vocational rehabilitation program, will not be assigned caseloads or clientele on the basis of race, color, or national origin of the persons being served.

(4) Individuals will not, on the ground of race, color, or national origin, be denied the opportunity to participate (Other than as employees except as provided in (5) below) in the vocational rehabilitation program or be afforded an opportunity to do so which is different from that afforded others. This includes opportunities to participate as providers of any services, as conferees, observers, consultants, or advisors.

(5) The agency will make no distinction on the ground of race, color, or national origin in its employment practices with respect to individuals seeking employment or employed under a part of the vocational rehabilitation program where a primary objective of that part is to provide employment. This includes situations in which the employment is provided to students, fellows, interns, residents, or others in training for related employment (including research associates or assistants in training for research work), or to provide remunerative activity to individuals who because of severe handicap cannot be readily absorbed into the competitive labor market.

(6) In making determination of the types of activity to be included in the Vocational rehabilitation program or the geographical areas in which such program or activity will be carried out, or the persons who will be served or afforded an opportunity to participate, criteria or methods of administration will not be used which have the effect of subjecting individuals to discrimination because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program as respect individuals of a particular race, color, or national origin.

(7) The agency recognized that its obligation to conduct the program in accordance with the requirements of the law and Regulations extends not only to those activities which are conducted directly by the State Agency but also to all activities under the

program which are conducted by other agencies, institutions, organizations, or political subdivisions, through contracts, or other arrangements with the agency. This includes any activity supported with the aid of Federal financial assistance or with the aid of any non-Federal funds, property, or other resources required to be expended or made available for the program to meet matching requirements, and also includes other conditions which must be met in order to receive the Federal financial assistance.

(8) The agency will not approve any application, or make any expenditures, for the establishment of a workshop or rehabilitation facility, through the expansion, remodeling, or alteration of existing buildings, or the acquisition of initial equipment, until it obtains or furnishes an assurance in a form approved by the Commissioner of Vocational Rehabilitation that the applicant will comply with all the requirements imposed by or pursuant to the Act or the Regulations.

(9) The agency will maintain such records and submit such reports as may be required by the Commissioner of Vocational Rehabilitation to assure compliance with the regulations and will permit access during the normal business hours of the agency to such of its facilities, records, and other sources of information as may be pertinent to ascertain compliance with the regulations, and will require the same from other agencies, institutions, organizations, or political subdivisions participating in the program.

(10) The agency will make available to participants, beneficiaries, and other interested persons such information regarding the provisions of the Act and the Regulations, and make available such information in such manner, as may be required by the Commissioner of Vocational Rehabilitation to apprise such persons of the protections against discrimination assured them by the Act and the Regulations and will require the same from other agencies, institutions, organizations, or political subdivisions participating in the program.

METHODS OF ADMINISTRATION

(a) The agency will inform and instruct its own staff concerning their obligations under the Act, the Regulations, and the Statement of Compliance filed by the State agency by:

(1) Making copies of all pertinent documents available to the entire staff;

(2) Conducting as a regular part of its in-service training program, meetings to explain to all staff the intent and meaning of such documents and to instruct them as to their obligation in carrying out the policies contained therein;

(3) Conducting through regular supervisory channels, constant review of practices and policies to assure that no individual is being discriminated against because of race, color, or national origin.

(b) The agency will inform and instruct other agencies, institutions, organizations, political subdivisions, and vendors which provide services, financial aid, or benefits under the program of their obligations to comply with the Act, the Regulations, and the Statement of Compliance filed by the agency as a condition to their initial or continued financial participation in the program. This will be accomplished:

(1) By making clear, through written materials and personal explanations on a group or individual basis, the requirements of the Civil Rights Act and implementing Regulations and the policies and undertakings of the Department to effectuate these requirements;

(2) Where another agency, institution, organization, political subdivision, or vendor conducts any activity or furnishes vocational rehabilitation services under a subgrant, contract, or other arrangements, by assuring itself that such activity will be conducted or such services will be furnished in accordance with the agency's obligation in its Statement of Compliance. This will be accomplished in appropriate cases by determining that the agency, institution, organization, political subdivision, or vendor has executed an assurance in the form prescribed by the Department of Health, Education, and Welfare which is currently effective and applicable to the program under which the activity is conducted or the services furnished. In other cases, the Department will take appropriate steps to satisfy itself that

the other agency, institution, organization, political subdivision, or vendor has agreed to and is conducting the activity or furnishing the service in accordance with the provision of the Statement of Compliance. This includes the use of memoranda of understanding setting forth specific obligations and undertakings of the other agency, institution, organization, political subdivision, or vendor or certifications of compliance on each voucher presented for payment to the Department. In any event, regular on-the-spot checks will be made by the Department staff to assure the compliance of any other agency, institution, organization, political subdivision, or vending participating in the program.

(c) The agency will inform clients, participants, potential clients and participants, and other interested persons, of the fact that services, financial aid, and other benefits under the program are provided on a nondiscriminatory basis, as required by the Civil Rights Act, and of their right to file a complaint with the State agency, of their right to file a complaint with the Federal agency, or both, if they believe that discrimination on the ground of race, color, or national origin is being practiced. This will be accomplished by:

(1) Written notice to all clients and to all applicants; and

(2) Inclusion of appropriate explanatory statements in public information materials which will be made available to interested persons and particularly to those individuals and groups which may be sources of referrals and applications.

(d) All complaints concerning discrimination because of race, color, or national origin shall be filed in writing, shall describe the type of discrimination alleged, and shall indicate when and where such discrimination took place and describe any pertinent facts and circumstances surrounding the alleged discrimination. The complaint shall be signed by the person making it. All complaints shall be addressed to the State Administrator who will assign them for thorough investigation through established supervisory channels. After the complaint has been looked into, the Administrator shall determine whether or not any discriminatory practice has been carried on and if he determines that one has, he will take such actions as may be necessary to correct past practices and to prevent the recurrence of such discrimination.

The complainant shall be advised in writing as to the findings of the agency regarding the complaint.

The agency will maintain adequate records to show the action taken as a result of each complaint and will make such information available to the responsible departmental official or his duly authorized representative.

(e) At least once a year and more frequently in those cases where discriminatory practices are alleged or suspected, a representative of the Department will visit institutions, organizations, and political subdivisions participating in the program to assure that their practices conform to Title VI of the Civil Rights Act and the Regulations issued pursuant thereto as reflected in the Statement of Compliance. Through regular supervisory reviews, the State Administrator and supervisory personnel will determine whether discriminatory practices are being engaged in by Department personnel and will take such corrective action as may be required to insure that their actions are consistent with Title VI of the Civil Rights Act and the Regulations issued pursuant thereto as reflected in the Statement of Compliance.

PERSONNEL

GUIDELINES FOR EMPLOYMENT OF PERSONNEL
Section 1

The continued success of this Department's efforts in rehabilitating the handicapped depends on recruiting of qualified individuals to perform the tasks required to carry out the Departmental activities.

The following points must be carefully followed by supervisory personnel:

1. Is the position to be filled? Before any supervisor proceeds to discuss position vacancies with any applicants, he must first determine, through appropriate supervisory channels, that the position in question is to be filled. Once it has been verified that the position is to be filled, the supervisor should carefully review the job content of the position in order to determine the minimum qualifications necessary before any recruiting efforts are made.
2. Recruiting sources: In recruiting applications all potential sources of qualified individuals must be considered. People who have already proven themselves in the local community should be carefully considered as potential applicants. It should also be remembered that the State Office may have knowledge of applicants who have expressed an interest in the field of rehabilitation and who are believed to be qualified for further consideration.
3. Reception of applicants: Applicants, whether employed or not, can spread good will for our Department or give it a bad name, based on the treatment received. To maintain our good image and thus continue to attract good applicants, keep these suggestions in mind:
 - (a) - Treat each applicant with courtesy.
 - (b) Keep up with interpretations of the Civil Rights Law and the Department's and State's policies regarding employment practices.
 - (c) Do not make vague promises, or tell any applicant to keep checking back if there are no foreseeable suitable job openings.
4. Preliminary interviews: The Initial Interview Card is to be used in conjunction with the preliminary interview. This information should be carefully completed, since this data is needed for statistical reports required of the Department. The card is to be forwarded to the Personnel Office and a copy is to be maintained in the local office. You should notice that an application is given to an applicant only after it appears that the individual meets or exceeds qualifications.
5. Preliminary screening: Any preliminary screening of an applicant should be based on the following information:
 - (a) Application Blank: Obtain an application from an applicant only if the applicant appears suitable for employment after the preliminary interview. Insure that the application is completed and signed. If there are any chronological gaps in the employment history, school attendance etc. these should be checked.

Revised 5/28/74

PERSONNEL

EMPLOYEE GRIEVANCE AND
APPEAL PROCEDURES

3-4

PURPOSE:

The purpose of this Policy is to provide a means whereby an employee who has six months of satisfactory employment with the Vocational Rehabilitation Department and feels that he has been subjected to unfair, discriminatory or abusive treatment may secure a hearing without delay and be assured of a prompt, orderly and fair response to the grievance or appeal.

POLICY:

The South Carolina Vocational Rehabilitation Department recognizes the right of employees to present and seek answers to grievances without fear of restraint, interference, coercion, discrimination or reprisal.

Employees who submit formal grievances may elect to be accompanied by another employee of his own choosing.

Members of the Grievance and Appeal Committee, presently employed personnel involved in a grievance hearing, and witnesses may attend Committee hearings without charge to leave or loss of pay. Employees may obtain from their supervisors a reasonable amount of time off without charge to leave or loss of pay for the purpose of securing advice on rights and privileges provided by this Policy and for obtaining information and assistance pertaining to their grievance which can only be obtained during normal working hours.

The Personnel Office will explain the procedures in detail to any employee and give assistance if needed. The predominant role of the Personnel Office in settling grievances is that of an advisor functioning objectively in a staff capacity. The Personnel Office is available to counsel with the employee and the supervisor in any phase of the formal grievance procedure.

Upon completion of the Employee Grievance and Appeal Committee hearing and the final decision, a copy of the Committee transcripts and other related correspondence will be forwarded to the Personnel Office for filing in the employee's personnel folder. All transcripts, records and findings of the Committee are property of the South Carolina Vocational Rehabilitation Department and are confidential. The records will not be made available for review to anyone except Departmental employees designated by the Commissioner of the South Carolina Vocational Rehabilitation Department.

PROCEDURE:

The formal grievance and appeal procedure will not be utilized until the employee has discussed his grievance with his immediate supervisor on an informal basis. The immediate supervisor should make every effort

PERSONNEL

EMPLOYEE GRIEVANCE AND
APPEAL PROCEDURES
3-4 (continued)

to resolve the problem on an informal basis. The employee's immediate supervisor should consult with his immediate supervisor concerning the problem or grievance. If the problem cannot be resolved on an informal basis, the employee may then utilize the formal grievance and appeal procedure. The following procedure shall regulate the submission, presentation and processing of all employee grievances.

Step One

If an employee has a problem or a grievance which cannot be resolved through the normal process of informal discussion, he may complete SCVR Form 64, Employee's Request for a Formal Grievance Hearing (see Exhibit 1). Copies of this form should be sent to the immediate supervisor and to the Personnel Office. After an employee requests a formal hearing, the immediate supervisor will schedule a hearing within five (5) calendar days after the formal request is filed and will hear the grievance and review the facts in an impartial manner. The immediate supervisor may call higher level supervisors into the discussion if the employee agrees, or the immediate supervisor may consult with higher level supervisors outside the formal hearing to secure advice before making a decision.

The employee shall receive an answer within ten (10) calendar days after the start of the first step of the hearing, or the employee will be notified and advised as to when an answer may be expected. The immediate supervisor will complete SCVR Form 65, Summary of Supervisory Grievance Hearing (see Exhibit 2), and send copies to the employee requesting the hearing and to the Personnel Office.

When the employee is notified of the decision of the immediate supervisor, the employee will be advised that he has the right to appeal the immediate supervisor's decision if a mutually agreeable decision has not been made.

Step Two

If the employee feels that the decision reached in the first step is not satisfactory or if the employee fails to receive an answer within the designated period of time provided in the first step, the matter may be referred by the employee to the Employee Grievance and Appeal Committee. The Commissioner of the Vocational Rehabilitation Department shall appoint an ad hoc Employee Grievance and Appeal Committee which shall be composed of three (3) employees of the Department. Any request for review at this stage will be submitted in writing to the Commissioner of the Vocational Rehabilitation Department within five (5) calendar days after receipt of the first step decision. The employee should state clearly the nature of his grievance and why the decision in the first step is unfair.

The Employee Grievance and Appeal Committee will schedule a hearing within ten (10) calendar days after receiving the request for a hearing. The Committee shall conduct whatever hearings, interrogation, investigations and fact-finding activities necessary to determine the facts.

PERSONNEL

EMPLOYEE GRIEVANCE AND
APPEAL PROCEDURES
3-4 (Continued)

At the conclusion of the hearings by the Employee Grievance and Appeal Committee, it will be the responsibility of the Committee to inform the Commissioner of the Department within ten (10) calendar days after the Committee hearing of the details of the problem, the reasons why it was not resolved at lower levels, and recommendations of the Committee. The Commissioner of the Department will make a decision within five (5) calendar days after receiving the decision and recommendations of the Committee, and his decision will be given to the employee, with copies to all concerned parties.

STATE EMPLOYEES GRIEVANCE COMMITTEE

Any employee who has six (6) months satisfactory service with the State may appeal a decision of the Department to the State Employees Grievance Committee. Such appeal must be in writing and submitted to State Personnel Division within ten (10) calendar days following the decision of the Department.

The Vocational Rehabilitation Department's grievance and appeal procedure shall not exceed the total of forty-five (45) calendar day time limit from beginning to end. Should the time period for the final decision exceed the forty-five (45) calendar day limit, an employee has the right to appeal directly to the State Employee Grievance Committee.

EQUAL EMPLOYMENT OPPORTUNITY

3-5

PURPOSE:

In accordance with the South Carolina Human Affairs Law, the Rehabilitation Act Amendments of 1974, the Equal Employment Opportunity Act of 1972 and sound personnel practices the South Carolina Vocational Rehabilitation Department provides for equal practices in employment, terminations, up-grading, training, demotions and treatment of individuals.

GENERAL POLICY:

The Equal Opportunity Program of this Department applies to both employees and applicants. Both are to be considered for opportunities with this Department on the basis of job-related individual differences and not solely on the basis of factors such as sex, race, color, creed, age, national origin, or physical disability. This Department adheres to this policy not solely because of legal requirements, but because it is a basic element of human dignity.

COMMUNICATING OBJECTIVES:

The Personnel Director is the Equal Opportunity Officer and through the Commissioner periodically reaffirms the Equal Opportunity Program. Each supervisor is responsible for taking positive affirmative actions within his specific work area. Supervisor responsibilities extend to explaining and discussing the affirmative action program with subordinates.

CLASSIFICATION AND COMPENSATION:

This Department continuously reviews the classification and compensation levels of its employees to assure equal pay for equal work regardless of sex, age, race, physical disability.

EMPLOYMENT PROCESS (RECRUITMENT, SELECTION AND PLACEMENT):

Supervisors should make every effort to attract, recruit and employ qualified employees from all minority groups. Applicants are accepted for positions on the basis of job-related individual differences and not on the basis of factors such as race, religion, national origin, sex, or physical disability.

EXCERPTS FROM S. C. VOCATIONAL REHABILITATION DEPARTMENT ADMINISTRATIVE MANUAL

PERSONNEL

EQUAL EMPLOYMENT OPPORTUNITY
3-5 (Concluded)

OTHER PERSONNEL ACTIONS (PROMOTIONS, DEMOTIONS, TERMINATIONS, TRAINING, PERFORMANCE APPRAISALS):

Supervisors should keep the State Office Staff informed as to names of employees who can be considered for promotional and training opportunities. It is the responsibility of supervisors to counsel with employees on a periodic basis, thereby providing an opportunity to discuss grievances, training needs and career opportunities. Exit interviews should be conducted by supervisory staff to find reasons and solutions to any turnover problems.

WORK ENVIRONMENT:

Special efforts should be made by supervisory staff to assure that the work environment and atmosphere does not include discriminatory elements. An important element in eliminating discrimination in the work environment is the orientation of new employees.

COMPLAINT PROCEDURES:

Any employee who feels that they have been discriminated against should consult with their supervisor and refer to the Grievance Procedure Policy.

FIELD MANAGEMENT

CIVIL RIGHTS
Section 3CIVIL RIGHTS:

Pursuant to the provisions of Title VI of the Civil Rights Act of 1964, and the Regulations issued thereunder, the Vocational Rehabilitation Department is conducted in such manner that no person is excluded from participation in, be denied the benefits of, or be subjected to discrimination under such program on the ground of race, color or national origin.

No individual will on the ground of race, color or national origin, be denied any service, financial aid, or other benefit provided under the vocational rehabilitation program or be provided a service, financial aid, or other benefit which is different, or is provided in a different manner, from that provided to others under the program. Such services, financial aid, or other benefits include all vocational rehabilitation services under the Vocational Rehabilitation Act, the Regulations Governing the Vocational Rehabilitation Program and the approved State Plan, and such related matters as the making of appointments, the designation of waiting periods, the selection of employment objectives, the quality of the services provided, and the selection of assignment of operators of vending stands and other small businesses.

No individual will on the ground of race, color or national origin be subjected to segregation or separate treatment in any matter related to receipt of any service, financial aid, or other benefit under the vocational rehabilitation program, nor will the individual be restricted in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid or other benefit under the program. This includes any distinction with respect to spaces where services are offered or provided; housing and eating facilities, waiting rooms, and restrooms. Neither will separate times be set aside on the ground of race, color or national origin for the provision of services.

Additional information pertaining to Civil Rights may be found in the Case Services Manual.

Hearing On Applicant's Appeals - An applicant for or recipient of vocational rehabilitation services under the State Plan who is dissatisfied with any state agency decision with regard to the furnishing or denial of services may file a request in writing for review and re-determination of that decision and such review shall be made by the Supervisor of Rehabilitation Services or his designated representative.

Opportunity for a fair hearing before the Department or the state administrator will be granted to any individual whose application for vocational

FIELD MANAGEMENT

CIVIL RIGHTS
Section 3 (Concluded)

rehabilitation services under the plan is denied or is not acted upon with reasonable promptness, provided the person makes the request in writing.

The standards and procedures adopted by the Department to ensure a fair hearing are:

1. Applicants for vocational rehabilitation shall be advised of their right to an opportunity for a fair hearing in the event the application is denied or is not acted upon with reasonable promptness.
2. The hearing shall be held at a time and place convenient to the individual requesting a fair hearing. Such individual will be notified in writing as to the time and place of such hearing within a reasonable time in advance of such hearing. Such individual will also be notified in writing of his right to be represented at the hearing by counselor or a friend, if he so desires, and he will be so notified in time to have an adequate opportunity to prepare his case.
3. At the hearing, the individual, and his representative if he desires to have one, will have an adequate opportunity for cross-examination and to present evidence in his behalf.
4. The hearing shall be held before an official or officials of the State Agency who, insofar as possible, have not taken part in the action under consideration. Authority to make the final decision based upon the record shall be exercised by the Department or the state administrator.
5. The verbatim transcript of the testimony and exhibits, or an official report containing the substance of what transpired at the hearing, together with all papers and reports filed in the proceedings and the hearing officer's recommendation, shall constitute the exclusive record for decision and shall be available to the individual at any reasonable time.
6. The decision shall set forth the issue, principle, and relevant facts brought out at the hearing, the pertinent provision in law and in agency policy, and the reasoning that led to the decision. The individual shall be forwarded a copy of the decision or shall be advised in writing of the content.

Chapter 1

DEVELOPMENT OF COMMUNITY RESOURCES AND REFERRAL SOURCES

The Vocational Rehabilitation Department exists for the benefit of the disabled persons of the state. Secondly, it exists for the benefit of society since the economy of the state is affected. The staff assumes the role of representing both the handicapped individual and the state in providing such services as may be necessary in the complete rehabilitation of the disabled person. It is the responsibility of the staff to insure that the disabled person is informed of the services that are available for making him a useful, self-reliant, and self-sufficient citizen.

Vocational Rehabilitation is a community function. The Vocational Rehabilitation staff can furnish leadership and coordination, but they need the help and cooperation of community facilities, agencies, and individuals. The staff should have a continuing system for developing and improving community relationships. They should know their community, the leaders, and the resources. They should participate in and affiliate with groups interested in human welfare, such as civic groups, councils of social work, mental hygiene societies, county health councils, educational clubs, and other such organizations. They should assume a leadership role in developing community facilities which may be needed in the rehabilitation process. The staff should be familiar with the details of cooperative agreements between the Vocational Rehabilitation Department and other state-wide agencies. They should be alert to the opportunities for developing close working relationships on a local level.

Referral Sources in the Community

The establishment and the development of an organized system of referrals is the first basic principle necessary to the successful operation of a vocational rehabilitation program. This system should insure a regular flow of applicants with a distribution among age, sex, race, disabilities, and background. Such distribution is necessary in order to insure that all groups are reached. The counselor should maintain a schedule of regular contacts with education, health, welfare, and social agencies, physicians and other individuals who serve handicapped persons. The counselor should arrange his itinerary so that all referral sources are visited regularly and so that prospective clients may be seen without delay or inconvenience.

The local school system is a fruitful referral source. It has been found that an effective method of locating referrals in schools is for the counselor to discuss the vocational rehabilitation program and eligibility requirements before each senior class at least once each year. Since many handicapped children do not reach the senior class, the counselor should also contact members of the teaching staff and explain the vocational rehabilitation program and receive such referrals.

Chapter 12

CIVIL RIGHTS

Pursuant to the provisions of Title VI of the Civil Rights Act of 1964, and the Regulations issued thereunder, the Vocational Rehabilitation Department is conducted in such manner that no person is excluded from participation in, be denied the benefits of, or be subjected to discrimination under such program on the ground of race, color or national origin.

No individual will on the ground of race, color or national origin, be denied any service, financial aid, or other benefit provided under the vocational rehabilitation program or be provided a service, financial aid, or other benefit which is different, or is provided in a different manner, from that provided to others under the program. Such services, financial aid, or other benefits include all vocational rehabilitation services under the Vocational Rehabilitation Act, the Regulations Governing the Vocational Rehabilitation Program and the approved State Plan, and such related matters as the making of appointments, the designation of waiting periods, the selection of employment objectives, the quality of the services provided, and the selection of assignment of operators of vending stands and other small businesses.

No individual will on the ground of race, color or national origin be subjected to segregation or separate treatment in any matter related to receipt of any service, financial aid or other benefit under the vocational rehabilitation program, nor will the individual be restricted in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid or other benefit under the program. This includes any distinction with respect to spaces where services are offered or provided, housing and eating facilities, waiting rooms and restrooms. Neither will separate times be set aside on the ground of race, color or national origin for the provision of services.

The counselors and other staff members will inform and instruct other agencies, institutions, organizations, political subdivisions, and vendors which provide services, financial aid or benefits under the program of their obligations to comply with the Act, the Regulations and the Statement of Compliance filed by the agency as a condition to their initial or continued financial participation in the program. This will be accomplished:

- (1) By making clear, through written materials and personal explanations on a group or individual basis, the requirements of the Civil Rights Act and implementing Regulations and the policies and undertakings of the Department to effectuate these requirements.

- (2) Where another agency, institution, organization, political subdivision, or vendor conducts any activity or furnishes voca-

tional rehabilitation services under a subgrant, contract or other arrangements, by assuring itself that such activity will be conducted or such services will be furnished in accordance with the agency's obligation in its Statement of Compliance. This will be accomplished in appropriate cases by determining that the agency, institution, organization, political subdivision, or vendor has executed an assurance in the form prescribed by the Department of Health, Education and Welfare which is currently effective and applicable to the program under which the activity is conducted or the services furnished. In other cases, the Department will take appropriate steps to satisfy itself that the other agency, institution, organization, political subdivision or vendor has agreed to and is conducting the activity or furnishing the service in accordance with the provision of the Statement of Compliance. This includes the use of memoranda of understanding setting forth specific obligations and undertakings of the other agency, institution, organization, political subdivision or vendor or certifications of compliance on each voucher presented for payment to the Department. In any event, regular on-the-spot checks will be made by the Department staff to assure the compliance of any other agency, institution, organization, political subdivision or vending participating in the program.

The Vocational Rehabilitation Staff will inform clients, participants, potential clients and participants and other interested persons, of the fact that services, financial aid and other benefits under the program are provided on a nondiscriminatory basis, as required by the Civil Rights Act, and of their right to file a complaint with the State agency, or their right to file a complaint with the Federal agency, or both, if they believe that discrimination on the ground of race, color or national origin is being practiced. This will be accomplished by:

- (1) Written notice to all clients and to all applicants; and
- (2) Inclusion of appropriate explanatory statements in public information materials which will be made available to interested persons and particularly to those individuals and groups which may be sources of referrals and applications.

All complaints concerning discrimination because of race, color or national origin shall be filed in writing, shall describe the type of discrimination alleged, and shall indicate when and where such discrimination took place and describe any pertinent facts and circumstances surrounding the alleged discrimination. The complaint shall be signed by the person making it. All complaints shall be addressed to the Department Commissioner who will assign them for thorough investigation through established supervisory channels. After the complaint has been looked into, the Commissioner shall determine whether or not any discriminatory practice has been carried on and if he determines that one has, he will take such actions as may be necessary to correct past practices and to prevent the recurrence of such

discrimination.

The complainant shall be advised in writing as to the findings of the agency regarding the complaint.

The Department maintains adequate records to show the action taken as a result of each complaint and will make such information available to the responsible departmental official or his duly authorized representative.

At least once a year and more frequently in those cases where discriminatory practices are alleged or suspected, the counselor will visit vendors, institutions, organizations and political subdivisions participating in the program in his geographical area to assure that their practices conform to Title VI of the Civil Rights Act, and a statement in writing will be submitted through the Area Supervisor to the State Office.

Civil Rights Compliance Report on Case Review by Program Specialist

1. Civil Rights Compliance Report for Counselors.
Through out the case study the Program Specialist should be alert to detect any evidence in the folder that the counselor could improve his performance in case development as it related to full compliance with the Civil Rights regulations. A special form is provided to record his findings. This form should be completed on each counselor when the initial case study is made and the report is submitted to the Supervisor, Division of Case Services. A copy of the form is included herein.
2. Civil Rights Compliance Annual Report of Offices.
This form is completed yearly on each office by a program specialist from the Division of Rehabilitation Services. A copy is included herein.

SOUTH CAROLINA VOCATIONAL REHABILITATION DEPARTMENT

CIVIL RIGHTS COMPLIANCE REPORTS

FOR
VOCATIONAL REHABILITATION COUNSELORS

Name of Counselor _____ Office _____

Type of Caseload _____ Geographical Area _____

Name of Reviewer _____ Date _____

Number of cases reviewed _____ Was there an adequate number of minority cases in the first twenty-five cases pulled. If not, explain _____

1. Dissemination of staff information - each counselor should explain:

- a. The agency's responsibilities under Title VI: The South Carolina Agency of Vocational Rehabilitation is being and will continue to be conducted in such manner that no person in the United States will be excluded from participation in, be denied the benefits of, or be subjected to discrimination under such program on the ground of race, color or national origin. The state agency is in fact administering the program in accordance with the law, the Regulations, and the policies and practices as outlined in the State Plan. Remarks: _____

- b. His responsibilities under Title VI: The counselor will inform clients, participants, potential clients and participants, and other interested persons, of the fact that services, financial aid and other benefits under the program are provided on a nondiscriminatory basis, as required by the Civil Rights Act, and of their right to file a complaint with the State agency, or their right to file a complaint with the Federal agency, or both, if they believe that discrimination on the ground of race, color or national origin is being practiced. Remarks: _____

- c. His responsibility for assuring vendor compliance within his service area: He informs and instructs other agencies, institutions, organizations, political subdivisions and vendors which provide services, financial aid, or benefits under the program of their obligations to comply with the act, the regulations, and the statement of compliance filed by the agency as a condition to their initial or continued financial participation in the program. Remarks: _____

2. Vendor Information

How have agency vendors been made aware of their responsibilities under Title VI? _____

3. Client Information

How are applicants and beneficiaries informed of:

- a. Their rights under Title VI: By personal explanations and written instructions. Remarks: _____

b. Their right to file a complaint of discrimination: By personal explanations and written instructions. Remarks: _____

c. The Procedure for filing a complaint of discrimination: By personal explanations. Remarks: _____

d. Is counselor aware of procedure of filing complaint: (See Sect. 25 State Federal Manual) Yes _____ No _____

4. Administration

a. On what basis is the caseload assigned to workers? Geographical areas.

b. Internal Review of Compliance

Is there a periodic review of case files, by race, to determine if there is:

1. Uniform consideration of requests for assistance.

2. Uniformity of promptness of notification of the clients of the decision on his case.

3. Uniformity of average time for case handling for minority and majority applicants.

4. Referral Sources:

Have all referral sources referred both white and nonwhite clients to the counselor or his supervisor? If exceptions, please note.

5. Compare white and nonwhite cases with respect to:

	<u>Yes</u>	<u>No</u>	<u>Remarks</u>
a. Is processing time adequate	_____	_____	_____
b. Are needs appropriate and adequate	_____	_____	_____
c. Is type of training suitable	_____	_____	_____
d. Is vocational objective in keeping with client's maximum potential	_____	_____	_____
e. Are accomplishments what they should be	_____	_____	_____
f. Is dollar cost for client on equitable basis	_____	_____	_____
g. Is dollar earnings after service equitable	_____	_____	_____
h. Is employment placement comparable	_____	_____	_____

Document similarities and/or differences between whites and nonwhites with respect to categories "a" through "h". Were all cases handled similarly? Explain.

a. List Title VI deficiencies in numerical order..

b. Recommended solutions - list in numerical order (Include a time limit for resolving each deficiency)

c. Revisit data. Enter date of revisit and document changes in numerical order.

Reviewer

HEARINGS ON APPLICANT'S APPEALS

Administrative Review

An applicant for or recipient for vocational rehabilitation services under the State Plan who is dissatisfied with any state agency decision with regard to the furnishing or denial of services may file a request in writing for review and redetermination of that decision and such review shall be made by the supervisor of rehabilitation services or his designated representative.

Opportunity for a fair hearing before the department of the state administrator will be granted to any individual whose application for vocational rehabilitation services under the plan is denied or is not acted upon with reasonable promptness, provided the person makes the request in writing.

The standards and procedures adopted by the Department to ensure a fair hearing are:

1. Applicants for vocational rehabilitation shall be advised of their right to an opportunity for a fair hearing in the event the application is denied or is not acted upon with reasonable promptness.
2. The hearing shall be held at a time and place convenient to the individual requesting a fair hearing. Such individual will be notified in writing as to the time and place of such hearing within a reasonable time in advance of such hearing. Such individual will also be notified in writing of his right to be represented at the hearing by counselor or a friend, if he so desires, and he will be so notified in time to have an adequate opportunity to prepare his case.
3. At the hearing, the individual, and his representative if he desires to have one, will have an adequate opportunity for cross-examination and to present evidence in his behalf.
4. The hearing shall be held before an official or officials of the state agency who, insofar as possible, have not taken part in the action under consideration. Authority to make the final decision based upon the record shall be exercised by the department or the state administrator.
5. The verbatim transcript of the testimony and exhibits, or an official report containing the substance of what transpired at the hearing, together with all papers and reports filed in the proceedings and the hearing officer's recommendation, shall constitute the exclusive record for decision and shall be available to the individual at any reasonable time.
6. The decision shall set forth the issue, principle and relevant facts brought out at the hearing, the pertinent provision in law and in agency policy, and the reasoning that led to the decision. The individual shall be forwarded a copy of the decision or shall be advised in writing of the content.

Attachment 21A: METHODS TO EXPAND AND IMPROVE SERVICES
TO THE MOST SEVERELY HANDICAPPED

South Carolina is progressing in an orderly manner to implement the legislative mandate to provide services to an increased number of severely disabled people.

A series of definitive steps has been taken during the 1976 fiscal year to increase both the quantity and quality of services to Vocational Rehabilitation clients, particularly the severely disabled. These include: (1) conducting a series of top management meetings with state office supervisors and program specialists to clarify policies and procedures for maximizing local efforts, (2) convening area supervisors to work through problems deterring service improvement and goal achievements, (3) stepping up state office site visits to monitor casework activities and train local personnel, (4) conduct training sessions for quality control counselors to help them assure quality casework and reduce time lags in the rehabilitation process, (5) increase program evaluation activities to define program improvement needs and alternatives, and (6) develop a facilities operational manual to clarify policies and procedures in our network of facilities.

A. Policy Areas

1. Program Planning, Evaluation and Statewide Studies

Building upon the stepping stones laid during FY 1976, the Department is now planning another series of activities for FY 1977 to assure expansion and improvement of services to severely handicapped individuals.

Program evaluation studies recently initiated and planned for next year will provide information helpful to the administration in assuring that services will be provided to as large a proportion of the disabled population as possible, that clients are placed in gainful occupations, that appropriate services are mobilized and provided in a timely manner with the individual's needs being paramount, that services are distributed equitably, that continued post-employment services are provided as necessary and that clients are satisfied with the VR service program.

Further studies will explore the needs of different types of clients and the contribution of various types of personnel, facilities, programs and patterns of service toward meeting these needs. A special effort will be made to study the reasons why clients drop out of the program and to determine ways of reducing this loss. A system has been devised whereby a local staffing team will conduct case reviews of all clients being held in 00 status for 90 days and any other status for 60 days so that an attempt may be made to "recycle" such individuals back into more active participation in the program.

2. Policy Consultation with Consumers and Advisory Groups

The agency's Supervisor of Research, Planning and Program Evaluation has been appointed by the Governor as the Director of the State White House Conference on Handicapped Individuals. In that capacity, he will have an excellent opportunity to study formally and through first hand experience the needs and concerns of a wide

variety of handicapped individuals in various parts of the state. A special effort will be made to obtain feedback from a significant number of these individuals regarding agency policies and programs.

Plans are also underway to organize a more formal advisory committee including a significant proportion of handicapped individuals. This group would be called upon to review and react to policy and procedural changes being considered by the Department while they are in the formulation stage.

In addition, a volunteer board or community advisory group has been established for each of our workshops and selected statewide facilities. Steps have been taken to instruct these community leaders in the objectives of the Rehabilitation Act and amendments so they will be prepared to help translate the spirit of the law and regulations into improved community services for the handicapped.

3. Cooperative Arrangements and Agreements

For the past two decades, the South Carolina Vocational Rehabilitation Department has led the nation in establishing cooperative programs designed to reinforce the efforts of other agencies and institutions and to enrich the service program for handicapped citizens. To date, more than 70 formal interagency agreements have been reached in an effort to provide an effective statewide service delivery system. These have produced specialized service programs in 24 school systems, major speech and hearing centers, juvenile courts, the Medical University, selected hospitals, 17 workshops and evaluation facilities, and in all of the state's institutions for retarded, mentally ill, respiratory diseases, corrections, youth services, alcoholism and drug abuse. By blending resources in these interlocking interagency programs, South Carolina has developed an unparalleled network of statewide and local community services for all types of handicapped individuals.

During FY 1977, interagency cooperative agreements and programs will be re-evaluated and updated as necessary to assure that the severely disabled are being served in a courteous, efficient and expeditious manner. Particular emphasis will be placed on strengthening the personal and vocational adjustment program.

4. Affirmative Action Plan

A program has been devised to monitor compliance with the Affirmative Action Plan signed by medical service vendors providing services to clients of Vocational Rehabilitation and the Department of Social Services. Statelevel personnel from the two agencies participated in a cooperative training program and completed a pilot check on vendors in two sample counties. The state's 46 counties were then divided between the two agencies. Vocational Rehabilitation will survey all vendor physicians, dentists, and optometrists in 31 counties during the eighteen-month period beginning 5/1/75. Local training programs for reviewers have been conducted in eight areas of the state to train them in the procedure of conducting the surveys to assure that medical service vendors comply with Affirmative Action Plans.

5. Public Information

A public information program has been initiated to acquaint potential consumers and professional people with the agency's program to serve the severely disabled. The agency's program for such individuals is being publicized through newspaper reports, the agency's newsletter, inclusion of severely disabled in several public meetings in which VR participates, and a series of radio and television announcements. A special effort will be made to acquaint the public with success stories of severely disabled who have been rehabilitated.

B. Programming Areas

1. Outreach, Intake, and Referral Practices

Plans are underway to intensify the agency's outreach and intake program. Referral sources will be examined to determine the number of severely disabled being referred from each. For example, of the 43,635 new referrals received by VR last year, more than 3,000 came from each of the following sources: physicians, the Social Security Disability Determination Division, the CMP program, and the Department of Social Services. More than 3,000 were referred by school personnel, other individuals, or by correctional institutions, courts, or probation officers. The remainder were referred by 26 other types of agencies. Measures will be devised to stimulate a continued flow of referrals from these sources.

Although referrals into the general program have increased since the beginning of the year, SSI referrals have been less than anticipated and their active participation in the rehabilitation process continues to remain a problem to be resolved. Incentives for referrals to move from SSI to active participation in Vocational Rehabilitation programs are not strong due to the rather generous allowances available to SSI recipients but other incentives will be explored.

2. Utilization of Facilities, Evaluation and Adjustment Services

The Department expects to make major advances during FY 77 toward its goal of operating a network of stateowned rehabilitation facilities.

The South Carolina Legislature has assumed an increased responsibility for providing expanded facilities in which we can provide evaluation, adjustment and extended employment services needed for rehabilitation of the severely disabled. By obtaining non-reoccurring funds to purchase land and construct buildings for facilities, we are now able to make long-range plans and will be able to administer the program in a more systematic manner.

Using a combination of state and federal funds, two rehabilitation facilities were doubled in size a few years ago. We now own the complete workshop facility at Florence and have completed construction of new facilities in Charleston, Walterboro, Orangeburg, and Sumter. Plans are underway for construction of two additional facilities in Greenville and Aiken and others will be considered as resources become available.

We have now completed construction of the initial phase of our Comprehensive Rehabilitation Center being built on a nine-acre site near the Opportunity School in West Columbia. Such a facility will enable us to better serve severely disabled clients who would otherwise have to be served out of state at considerable expense.

In all of the facility improvement programs, the extended evaluation and employment section is being expanded to accommodate more severely handicapped individuals. In addition, a network of Activity Centers has been developed cooperatively with the Department of Mental Retardation. Centers were created in two facilities last year, six more have been funded and have begun operation, and plans are being formulated for two additional activity centers. These are designed to serve the severely retarded and other developmentally disabled clients. The Department has been operating an expansion grant program which established fourteen positions for personnel whose primary responsibility is to work with the severely disabled in the extended employment section of our facilities.

3. Placement Services

The Department feels strongly that rehabilitation facilities can play an important role in preparing many clients for successful placement. Therefore, job-seeking skills will be emphasized in personal and social adjustment classes conducted in rehabilitation facilities. Additional instruction will be provided in specific areas such as job interviewing, how to complete employment applications, personal grooming and dress, etc.

We are also rapidly moving toward having full-time placement specialists in key areas of the state and already have six full-time staff assigned to this activity. During the next year, we plan to strengthen our working relationship with the State Employment Service, to assure that all of their resources are available to rehabilitation clients.

4. Post-Employment Services

We have always emphasized placing clients in positions in keeping with their optimal level of development, and will continue to do so, but counselors will be encouraged to provide whatever post-employment follow-along services are necessary to assure that clients maintain a high level of employment. As the mandates and intent of the Rehabilitation Act of 1973 has been explained to our counselors, it is anticipated that an increased number of severely disabled clients will receive services after successful closure in the future. State Office procedures have been established to monitor these activities.

5. Special Projects

A statewide program for the deaf and hearing impaired, now completing its third year, will again be emphasized during the coming year. The twenty-six member staff of this program has now received extensive training in various aspects of deafness. This will enable the Department to serve an increased number of deaf clients in FY 1977 and to provide more indepth services to the severely disabled deaf. The RSA funded research and demonstration grant at the Opportunity School will make a significant contribution.

A three-year training grant initiated July 1, 1974, will continue to allow community teams of six to eight participants to attend one-week training conferences at the Palmetto Center, a comprehensive alcoholic Center operated by the agency. This should greatly expand the interagency approach stressed in South Carolina.

The agency will also continue its intervention project for employed Alcoholics which has just completed its first year of operation. The Drug Addiction Project, a vocational evaluation program located within the South Carolina Addiction Center, has completed another successful year and will continue to expand its services.

A comprehensive rehabilitation service program located in the Medical University Hospital has been expanded in order to provide a wider range of rehabilitation services to epileptics and individuals with seizure disorders of unknown etiology referred by local counselors throughout the state. As a result of this program expansion, medical, psychological, social and vocational rehabilitation services will be available to a greater number of severely handicapped individuals.

6. Trust Fund and SSI Programs

At the present time, South Carolina has thirteen full-time trust fund counselors and ten full-time SSI counselors. Each of these programs has a full-time state level supervisor. After a thorough exploration of past results, a plan has been developed to modify procedures and train these specialty counselors so as to provide quality services to these severely disabled clients.

7. Elimination of Barriers

One of the benefits of building new or expanded facilities will be that the buildings and grounds can be designed to eliminate architectural barriers.

South Carolina recently passed a new architectural barriers law which will set standards for construction of a wide range of public and private facilities. The Vocational Rehabilitation Department Commissioner is a member of the Board assigned to administer this law and will help develop standards which will markedly influence the mobility of severely disabled individuals.

A member of the agency staff will work with members of the Citizens for Advancement of the Physically Handicapped in developing plans for improved housing for the physically disabled who have severe mobility limitations.

In addition, we will continue to develop an improved transportation system for clients in areas where this has been a particular barrier to their obtaining needed services.

C. Management Areas

1. Administrative Measures

After a series of supervisory planning and training sessions, counselors and facility personnel were instructed to identify the severely disabled in

our present caseload as a first step in improving services to them. Following special efforts by the Commissioner to communicate the priority nature of services to the severely disabled, state supervisors were assigned responsibility for encouraging an intensive evaluation and service program for those presently on the caseload, reassessing the allocation of case service funds, intensifying our supervisory consultation and state office case review program, modifying staff assignments as needed, and developing an appropriate staff training program. It is expected that additional administrative action will be taken as needed to help expand and improve the service program throughout the coming year.

2. Inservice Training

A number of intensive inservice training programs have been conducted or planned to (a) acquaint all levels of personnel with the objectives and requirements of the Rehabilitation Act of 1973 and amendments, (b) help firstline supervisors increase their effectiveness in supervision, program management and development of improved patterns of service, (c) help counselors and facility personnel improve their evaluation capabilities, (d) strengthen the adjustment services program and (e) modify staff attitudes and expertise in serving the severely disabled.

Special staff development programs have been designed for quality control specialists, area supervisors, statewide facilities, local workshop and facility supervisors, trust fund and SSI counselors and several types of specialty counselors.

A team of state office personnel prepared audio-visual materials and developed a training package which they presented in all local areas to train counselors in the process of developing Individualized Written Rehabilitation Programs.

Using findings from the agency's program evaluation, quality control, and case monitoring activities, an intensified effort will be made by state and area office personnel to conduct individual and small group training designed to identify methods of improving services to the severely disabled and train counselors in serving them in a more productive and expeditious manner.

During the coming year, special emphasis will be placed on developing a training program designed to improve personal and work adjustment services to clients.

Policy Development Consultation Resources

In keeping with Federal Rules and Regulations as published in the Federal Register, November 25, 1975, Section 1361.19, the S. C. Vocational Rehabilitation Department has developed various methods and means by which the views of individuals and groups are taken into account in connection with matters of general agency policy development and implementation arising in the administration of the State Plan for vocational rehabilitation services. These individuals and groups include (1) recipients of vocational rehabilitation services, or their parents, guardians, or other representatives, (2) providers of vocational rehabilitation services; and (3) others active in the field of vocational rehabilitation. The following narrative is a description of the methods used to obtain and consider such views on policy development and implementation.

Medical Advisory Committee

The Vocational Rehabilitation Department maintains a Medical Advisory Committee. This committee is appointed by the Department, and is concurrently recognized by the S. C. State Medical Association as its official Committee on Vocational Rehabilitation Services. Thus, members of this advisory committee serve in a joint role, for the Department and for the Medical Association. The chairman of the Medical Advisory Committee is also the Chief Medical Consultant to the Department, a part-time paid position. The Chief Medical Consultant is also active in the Medical Association, and has long served as an officer of the Association in various capacities.

The Medical Advisory Committee includes numerous providers of vocational rehabilitation services from communities throughout South Carolina, and all members are, by their participation in this committee, active in the field of vocational rehabilitation. The duties of this advisory committee include advising the Department as to policies and procedures which should be implemented in keeping with medical aspects of vocational rehabilitation. They advise the Department of new technology pertaining to treatment, diagnosis and evaluation, and thereby have impact on policies and procedures adopted by the Department.

S. C. Commission on Alcoholism

In keeping with the provisions of the S. C. Vocational Rehabilitation Law, Part II, Section 3, the S. C. Commission on Alcoholism "shall study the problem of alcoholism in the State and consult with and advise the State Agency of Vocational Rehabilitation regarding the treatment and rehabilitation of alcoholics" Therefore, individuals who serve as members of the Commission on Alcoholism also have advisory responsibility to the Vocational Rehabilitation Department in the area of alcohol rehabilitation.

Advisory Council on Deafness

As part of the recent emphasis on expanding vocational rehabilitation services to the deaf and hearing impaired, the Department has established an Advisory Council on Deafness. This council serves in an advisory capacity to make recommendations relative to agency policy and procedure as pertains to unmet service needs of deaf individuals.

This advisory council includes deaf recipients of vocational rehabilitation services, parents of recipients of vocational rehabilitation services, providers of vocational rehabilitation services, and others active in the field of vocational rehabilitation. Representatives of major State agencies are participants on this council, as are representatives of various client organizations, including the S. C. Association of the Deaf.

Workshop Facility Advisory Boards

Each of the thirteen (13) Vocational Rehabilitation Workshop facilities operated by the Department has a volunteer Advisory Board composed of interested individuals from within the local community the workshop serves. These local advisory boards are comprised of professional and lay leaders, many of whom are parents of recipients of vocational rehabilitation services, or are providers of vocational rehabilitation services in the community. The primary purpose of each Workshop Facility Advisory Board is to provide input from the community as to the rehabilitation needs of the handicapped population in each respective area.

In order to maximize direct communications between local workshop facility advisory boards and the Department, in all instances the Department's Area Supervisory is a member of the advisory board. In addition, State Office supervisory staff are present at local board meetings in order to further provide liaison between the community and the Department. As a result of these direct and continuing relationships between advisory board members and supervisory staff, an effective means for obtaining the views of individuals and groups is maintained in each area of the state.

Evaluation Standards Reviews

As part of the Department's compliance with Evaluation Standards as published in the Federal Register, December 19, 1975, Section 1370.5, the Department regularly shall contact and seek the views of recipients of vocational rehabilitation service. Hundreds of former clients of the Department are contacted each year with particular emphasis on the client's satisfaction with vocational rehabilitation services, and on the views of former clients as to policies and procedures of the Department. These studies conform to criteria established for evaluation standard studies and reviews.

Client Inquiries and Complaints

With the large number of clients, referrals, and applicants who come in contact with the Department each year there are always inquiries and/or complaints about decisions, policies or procedures of the Department. In an effort to make certain that such questions or views of recipients of vocational rehabilitation (or potential or previous recipients) or of other interested citizens are known to the top administrative officers of the Department, all such inquiries to the State Office are handled directly by the Office of the Commissioner or the Assistant Commissioner for Field and Case Services. This responsibility is not delegated to lower levels of administration and the results of any investigations are made known directly to the Commissioner. In this way the views of individuals and all related facts concerning the matter are immediately communicated to the agency administration.

S. C. Chapter of the National Rehabilitation Association

The Department enjoys a close and fruitful working relationship with the South Carolina Chapter of NRA. As a result of this relationship, the Board of the State National Rehabilitation Association has a constant opportunity to make known its views about policies and procedures of the Department to top level administrators of the Vocational Rehabilitation Department. At each Board meeting of the S. C. National Rehabilitation Association, the Commissioner, Assistant Commissioners and other key administrative staff are invited to meet with the Board in an opportunity to share views and ideas. The local National Rehabilitation Association Board consists of providers of vocational rehabilitation services and various other citizens interested in vocational rehabilitation, thus providing yet another means for the views of individuals to become known to the Department.

Participation in Interagency Council and Committees

The Department has long been an active participant in various councils and committees within South Carolina. As a result of these many organizations, representatives of the Department are constantly in contact with various other providers of vocational rehabilitation services. For example, the Department has always been appointed to membership on the Developmental Disabilities Council, a group composed of numerous service providers, handicapped individuals, some of whom are recipients of Department services, and other interested citizens. In addition, the Department has official membership in many interagency and community organizations, all of which allow additional opportunities for individuals and groups to make known their views regarding vocational rehabilitation services, policies and procedures.

Summary

As a result of this agency's being in constant communication with a wide variety of advisory committees, councils, boards, agencies, and consumer associations along with a system of yearly followup contacts with several hundred former clients, it is felt that the S. C. Vocational Rehabilitation Department has ample methods and means whereby the views of individuals and groups are taken into account in formulating agency policies and procedures. The Department is committed to continuing these opportunities for citizens to make their views known.

Attachment 22B: OUTCOMES AND SERVICE GOALS

The impact of our placing priority on the severely disabled and intensifying services to groups of clients listed in Attachment 8.2(a)A of the State Plan will be reflected in the numbers served and rehabilitated during FY 1977. In addition to regular monitoring of our progress toward disability group goals listed below, data will be obtained regarding the number of total and severely disabled clients served and rehabilitated in each of the priority groups enumerated in 8.2(a)A for the base year FY 1976 and for each subsequent year.

DISABILITY GROUP GOALS

PROGRAM GOAL ADJUSTMENTS

Disability Number

Remarks

- | | |
|--------|---|
| 2,4,14 | A net increase is expected in the number of clients served and rehabilitated with visual, hearing and speech impairments. Although the number in the general program will not increase, the CETA funded screening program will produce an increased number of clients in these disability categories. |
| 8 | The number of clients with "Other Personality Disorders" served and rehabilitated will increase slightly from FY 1976 to FY 1977 rather than decreasing as we have added two new family court programs, using LEAA funds, which tend to have a high proportion of referrals in this category. |
| 11 | The number of mildly retarded is expected to decrease and the number of moderately and severely retarded is expected to increase, resulting in a slight reduction in the proportion of all clients served and rehabilitated who are retarded. |
| 13 | The number of clients served and rehabilitated with heart diseases such as hypertension, varicose veins, hemorrhoids and other circulatory disorders (Codes 645-649) is expected to decrease while the number with other types of heart diseases (Codes 640-644) is expected to remain fairly constant, thus resulting in a slight net decrease in this general category. |

SUMMARY

The slight increase from 1976 to 1977 in the estimated number of clients to be served and rehabilitated is based upon several assumptions that we feel are valid. Based upon the best information available at this time, we expect that there will be less federal Vocational Rehabilitation funds available to South Carolina in view of the state's increasing per capita income. Also, the effect of the recession on several of South Carolina's key industries has caused state officials to predict that there will be no more state operational funds available to the agency than in 1976. Yet, higher expenditures are expected in every category including non-service expenditures such as rents, utilities, travel, consumable supplies, and personnel salary increases authorized by the legislature. It is therefore expected that the per client cost of all case services will increase during the coming year.

Although the expected increase in costs and decrease in revenue would normally prompt us to project a decreased number of clients served and rehabilitated in 1977, it is expected that through careful management and increased utilization of other resources, we will be able to maintain production at a level slightly higher than during the current year. If the federal maximum were increased and additional federal funds made available, it is likely that sufficient state funds would be available for the match and the agency would be in a position to consider revising its production goals upwards.

Attachment 22B: OUTCOMES AND SERVICE GOALS

The impact of our placing priority on the severely disabled and intensifying services to groups of clients listed in Attachment 8.2(a)A of the State Plan will be reflected in the numbers served and rehabilitated during FY 1977. In addition to regular monitoring of our progress toward disability group goals listed below, data will be obtained regarding the number of total and severely disabled clients served and rehabilitated in each of the priority groups enumerated in 8.2(a)A for the base year FY 1975 and for each subsequent year.

The slight increase from 1976 to 1977 in the estimated number of clients to be served and rehabilitated is based upon several assumptions that we feel are valid. Based upon the best information available at this time, we expect that there will be less federal Vocational Rehabilitation funds available to South Carolina in view of the state's increasing per capita income. Also, the effect of the recession on several of South Carolina's key industries has caused state officials to predict that there will be no more state operational funds available to the agency than in 1976. Yet, higher expenditures are expected in every category including non-service expenditures such as rents, utilities, travel, consumable supplies, and personnel salary increases authorized by the legislature. It is therefore expected that the per client cost of all case services will increase during the coming year.

Although the expected increase in costs and decrease in revenue would normally prompt us to project a decreased number of clients served and rehabilitated in 1977, it is expected that through careful management and increased utilization of other resources, we will be able to maintain production at a level slightly higher than during the current year. If the federal maximum were increased and additional federal funds made available, it is likely that sufficient state funds would be available for the match and the agency would be in a position to consider revising its production goals upwards.

Attachment 23A: Changes in Policy Resulting From Statewide
Studies and Annual Program Evaluation

An increased number of state and local level personnel have become involved in the agency's program evaluation activities and have contributed to policy and procedural changes which have already begun to improve our service program.

1. Construction of State-Owned Facilities

After evaluating several aspects of our facility expenditures and patterns of facility management, the Department has embarked upon a program of constructing a network of state-owned and operated rehabilitation facilities rather than renting facility space from private property owners. Such facilities will (1) be designed to more appropriately meet the needs of severely disabled, (2) allow future rent money to be applied toward programs, and (3) increase agency control over facility operations.

2. Case Service Monitoring System

A review of agency fiscal procedures has led to a policy and program of more extensive sample-monitoring and intensive auditing of counselor case service expenditures.

3. Quality Control Personnel

A review of pilot programs in which we established quality control personnel in selected areas has prompted the agency to establish the policy of employing a full-time quality control man in each area office where the caseload makes it feasible to do so and part-time quality control personnel in all others.

4. Transportation System

Research to identify the reasons for clients' failure to participate in facility programs, a study concerning gaps in service, and an evaluation of facility utilization has prompted the Department to purchase a number of vans and buses and to establish in at least a minimal fashion its own transportation system for clients.

5. Comprehensive Rehabilitation Center

A statewide analysis of services for the severely disabled had led us to make definite plans to construct a Comprehensive Rehabilitation Center near the center of the state to serve severely disabled on a statewide basis. The Center has now been completed and is ready for occupancy as soon as final arrangements can be made to staff and operate it.

6. Personnel Data Bank

A more sophisticated data bank on agency personnel has been initiated so that we can more readily retrieve information needed (1) to identify training needs, (2) for promotional considerations, (3) to assure equal employment and promotional opportunities, (4) to evaluate performance standards and for other personnel management purposes. This resulted from a systematic plan to improve personnel management.

7. Administrative Manual

After studies indicating considerable area-to-area variations in interpretation of administrative policies and wide variations in practices, a comprehensive Administrative Manual was written to help assure uniformity in the administration of the rehabilitation program throughout the state.

8. Expanded Computer Capability

We have expanded our computer capability with a potential for initiating a terminal system as a result of a series of decisions designed to improve our program management. After reviewing our monitoring and reporting procedures, changes were made in forms and internal reporting procedures which will result in more frequent and more accurate pictures of our operations and enable us to monitor our progress toward goals.

9. Facilities Manual

Following a series of studies and conferences regarding transportation of clients to facilities, supplemental maintenance, and other aspects of the facility program, a Facilities Manual was created in an effort to clarify facility policies and procedures. A training program was then devised to help facility personnel understand changes in the operation of facility services.

PROBLEMS ENCOUNTERED DURING FISCAL YEAR 1975-76 IN CARRYING OUT
AFFIRMATIVE ACTION GOALS

During the past fiscal year and projecting into the next fiscal year, this Department has encountered numerous problems fulfilling our responsibilities under Affirmative Action Plans due to the fact there have been several budget restrictions in South Carolina. There has been a gubernatorial freeze on all hiring to the point where it requires special approval from the State Budget and Control Board to fill any vacancy. There also have been two (2) budget cuts during the last fiscal year which have caused the Agency to actually lose total numbers of positions within the Agency.

Blindness, both eyes

119 - ill-defined and unspecified causes 1

Blindness, one eye, other eye good,

131 - glaucoma 1
136 - congenital malformations 1
137 - accident, poisoning, exposure or injury 3
139 - ill-defined and unspecified causes 3

Other visual impairments

140 - cataract 1
146 - congenital malformations 1
147 - accident, poisoning, exposure or injury 1
149 - ill-defined and unspecified causes 3

Deafness, unable to talk

202 - upper respiratory infections and other
infectious diseases 1

Deafness, able to talk

218 - accident, poisoning, exposure or injury 1

Other Hearing impairments

229 - ill-defined and unspecified causes 16

Impairment involving three or more limbs, or entire body

310 - arthritis and rheumatism 2

Impairment involving one or both upper limbs

354 - poliomyelitis 1
359 - all other accidents, injuries and
poisoning 3

Impairment involving one or both lower limbs

361 - congenital malformation or other ill-
defined birth injury 2
363 - other diseases, infectious 2
370 - arthritis and rheumatism 2
374 - poliomyelitis 3
379 - all other accidents, injuries and
poisonings 5

Other and ill-defined impairments

383 - other diseases, infectious	1
390 - arthritis and rheumatism	3
398 - accident and injuries, involving spinal cord	2
399 - all other accidents, injuries and poisonings	9

Loss of both major upper extremities

419 - accidents, injuries and poisonings	1
--	---

Loss of other and unspecified parts

449 - accidents, injuries and poisonings	1
--	---

Psychotic Disorders

500 - psychotic disorders	1
